Thompson Peterson Guide To Distance Learning

Luppisini, Rocci

Thompson Peterson Guide To Distance Learning:

Guide to Distance Learning Programs University Continuing Education Association, 2001 **Distance Learning**
Chandra Mehrotra, C. David Hollister, Lawrence McGahey, 2001-09-21 This book is a fine example of what is needed for distance learning teachers administrators and evaluators throughout the world It provides good coverage of the timely topics that face distance educators daily For those considering starting a distance learning course or program this book would provide a solid footing upon which to make important decisions REVIEW OF HIGHER EDUCATION The overall strength of this volume is its emphasis on practical considerations that an instructor is likely to encounter in creating a distance course particularly strong in presenting easily understood principles of good practice for those who must plan and implement distance learning EVALUATION PROGRAM PLANNING What delivery methods are available to make education accessible to a wide variety of potential learners What are their strengths and weaknesses How can instructors create effective learning environments in distance courses What support from administrators and staff is essential What guidelines are used by accrediting agencies to assure program quality This highly readable book by three experienced faculty members answers these questions and more Both theoretical and practical the book presents proven principles and research based advice Drawing upon their experience with a variety of delivery modes the authors provide readers with tips they can use in designing implementing and evaluating distance courses and programs Instructors and administrators alike will find much valuable assistance including A wealth of examples and strategies based on field tested models student preferences and the authors own extensive experiences Comprehensive coverage that addresses available delivery options factors to consider when selecting a delivery mode designing a syllabus for a distance course fostering student learning and development and providing student support services Concrete and practical approaches for assessing student learning conducting course and program evaluation and addressing accreditation guidelines Summary tips and references to web sites that conclude each chapter provide convenient summaries for readers and guide them to additional resources A companion web site that illustrates the text s coverage with concrete examples Drawing upon the rich details provided by the authors faculty and administrators will be able to meet the challenge of developing and evaluating successful distance learning courses and programs

Handbook of Conversation Design for Instructional Applications Luppicini, Rocci, 2008-01-31 Given the rapid growth of computer mediated communication there is an ever broadening range of social interactions With conversation as the bedrock on which social interactions are built there is growing recognition of the important role conversation has in instruction particularly in the design and development of technologically advanced educational environments The Handbook of Conversation Design for Instructional Applications presents key perspectives on the evolving area of conversation design bringing together a multidisciplinary body of work focused on the study of conversation and conversation design practices to inform instructional applications Offering multimodal instructional designers and developers

authoritative content on the cutting edge issues and challenges in conversation design this book is a must have for reference library collections worldwide

Professional Development in Online Teaching and Learning in Technical Communication Beth L. Hewett, Tiffany Bourelle, 2020-05-18 Technical communication instructors need professional development opportunities that will aid them in creating their online courses in developing curricula and in teaching in what may be a new environment Although instructors can turn to instructional design teams for assistance in using Learning Management System and its functions they specifically need their own first hand immersive learning within their pedagogical training In other words teachers need to learn in an online context like the environment that their students will use such direct training helps instructors to facilitate student learning in a technologically distributed classroom Beyond learning technological skills to facilitate a course these teachers need to learn to use the technology effectively to keep students on track and to teach them skills and material This collection which includes three contributions from 2007 and 10 from 2017 focuses on the types of professional development instructors need to be successful in the online technical communication classroom Formed as a 10 year retrospective of the field and its advances in online education professional development the book offers instructors theoretical and practical suggestions for creating and teaching successful online courses and managing entire online technical communication programs This book was originally published as a special issue of Technical Communication Quarterly TCQ
