Thread Of Death:

Thread of Death Jennifer Estep, 2012-01-31 Gin Blanco aka the assassin the Spider might have finally killed her nemesis Mab Monroe but that doesn't mean that it's smooth sailing Gin goes to Mab's funeral to say her goodbyes and runs into some of Ashland's most notorious underworld power players including Jonah McAllister and Phillip Kincaid McAllister wants her dead and Kincaid has his own murky motives when it comes to the Spider and Gin once again finds herself fighting for her life Only this time she might wind up in the cemetery right next to Mab

Harry Marshall Ward and the Fungal Thread of Death Peter G. Ayres, 2005 Harry Marshall Ward and the Fungal Thread of Death is a fascinating biography that reflects the changes that occurred in both society and plant science in the late 19th century Harry Marshall Ward's reputation has until now rested on discoveries about the transmission of plant disease that he made while studying coffee leaf disease in Ceylon Important as these were both biologically and in establishing his reputation as a researcher historical perspective shows that they are much less significant than his role in establishing the pre-eminence of British botany in the early years of the 20th century and his part in the origins of physiological plant pathology Neither of these roles has been properly recognized before now and they form the core of this biography Late in Queen Victoria's reign the old science of botany was galvanized by a revolutionary doctrine investigation by experiment In the 1870s a small group of young men from around the world were attracted to study in the German laboratories of Anton De Bary and Julius Sachs where they were taught to rely on their own observations rather than textbooks and above all to investigate by experiment They carried away this new philosophy and revolutionized botany in their own countries Harry Marshall Ward was one of these few young scientists His laboratory based discoveries of the way pathogens use enzymes to attack plants and the way plant cells defend themselves are at the heart of our current understanding of infection and resistance mechanisms and of plant breeding Studies of the microbiology of brewing and of drinking waters diverted him from plant disease but led him to become an early advocate of applied biology In his last years as Professor of Botany at Cambridge University he modernized the teaching of botany guiding young men such as Biffen plant breeding and Freeman plant pathology who in their turn became world leaders in their subjects Ward made major contributions to the affairs of the British Association and was twice President of the young British Mycological Society He died at the early age of 52 but left a rich scientific legacy This fascinating book will be of interest to plant pathologists mycologists historians of science agriculture or biology and professors instructors of biology The science is explained in simple language and diagrams making it accessible to biology students or anyone with an interest in plant biology

Radionics & The Subtle Anatomy Of Man David V Tansley,2011-05-31 Radionics is defined as a method of diagnosis and therapy which is primarily concerned with the utilization of subtle force fields and energies for the purpose of investigating and combating the causes of disease which ravage humanity and the other kingdoms of nature But in examining the history and development of radionics from the pioneering work of Dr Albert Abrams and Ruth Drown to the latest experimental work at the de la Warr Laboratories David Tansley discovered a curious paradox In literature on the subject and in the rare books which provide the very core of radionic therapeutic measures there are plenty of references to man s physical organic systems but little regarding the probability of underlying force fields which might govern and determine the health of the physical form This book represents an informed endeavour to redress the balance by providing a simple yet practical outline of the subtle anatomy of man The theory is not new Abrams diagnosed at a distance and Drown treated absent patients David Tansley believes that the time is ripe for radionics to bear witness to an energy field of a more subtle nature that is in fact its innate purpose
