Heydrick, 2015-07-04 Excerpt from How to Study Literature A Guide to the Intensive Study of Literary Masterpieces This book is intended to aid in the study of literature It is generally conceded that the best method is to take up certain literary masterpieces But how shall a masterpiece be studied A play of Shakespeare's is before the class The text book is provided with an introduction and notes The introduction gives the date and the sources of the play the notes explain difficult words and allusions It is easy to assign lessons on this basis and very easy to set examinations on it Yet a class may know introduction and notes thoroughly and still be far from appreciating or even understanding the play as a piece of literature For the introduction deals with facts of literary history the notes with philology grammar and manners and customs of the time This information is valuable it is indispensable but it is after all only a means to an end and that end is the appreciation and enjoyment of a literary masterpiece The aim of this manual is to facilitate the systematic careful and appreciative study of literature as literature It concentrates attention upon the text itself not upon editorial explanation or comment About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
