How important were and are the Beach Boys to the making of California's culture? What is the capital of Hawaii? Are the Hawaiians themselves still in charge of their state and its economy? How many artists, writers, poets and sculptors have lived in Massachusetts? Why was it so easy for the Pilgrims and the Puritans to take over eastern Massachusetts? Is New York a city, a state or a state of mind? How many artists and writers have attempted to do justice to the beauty that exists in New York State? Is Mount Rushmore the place from which to view the accomplishments of the state and its people? Who were the first inhabitants of what we call South Dakota? Is it true that the people of Washington and indeed most of the Pacific Northwest are more liberal than their East Coast cousins? Is it true that it never stops raining on the Washington coast? Wide ranging and comprehensive with nearly 140 illustrations, this information rich tome also includes a helpful bibliography and an extensive index adding to its usefulness. A perfect companion for history buffs of all ages, The Handy State by State Answer Book Faces Places and Famous Dates for all Fifty States is an ideal home reference and a convenient place to go to look up the basic facts and more of each of the 50 states. **The Labyrinth of North American Identities** Philip Resnick, 2012-04-25 What exactly does it mean to be North American? Europeans have been engaged in a long running debate about the meaning and nature of Europe. The Labyrinth of North American Identities generates a similar discussion in the context of North America: what do we learn about North America as a unit and its individual countries when

we explore the idea of a shared North American identity Combining cultural anthropological historical political economic and religious considerations Philip Resnick acknowledges the relative differences in power and influence of the United States and its North American neighbours but digs deeper to uncover shared characteristics that constitute a labyrinth of North American identities unrestricted by national boundaries To date discussions of North America have largely revolved around the often technical implications of the North American Free Trade Agreement NAFTA or US homeland security What has been lacking by contrast is a culturally driven set of reflections This book examines the legacy of indigenous cultures the role of organized religion pathways to independence the role of imperial languages manifest destiny market capitalism and its limitations democratic practices and failures diverging uses of the state new world utopias and dystopias regional identities and civilizational perspectives What results is a vision of North America that defies any top down attempt to impose a homogeneous North Americanness

Soul of a People David A. Taylor, 2010-04-15 *Soul of a People* is about a handful of people who were on the Federal Writers Project in the 1930s and a glimpse of America at a turning point. This particular handful of characters went from poverty to great things later and included John Cheever, Ralph Ellison, Zora Neale Hurston, Richard Wright, and Studs Terkel. In the 1930s they were all caught up in an effort to describe America in a series of WPA guides. Through striking images and firsthand accounts, the book reveals their experiences and the most vivid excerpts from selected guides and interviews: Harlem schoolchildren, truckers, Chicago fishmongers, Cuban cigar makers, a Florida midwife, Nebraskan meatpackers, and blind musicians. Drawing on new discoveries from personal collections, archives, and recent biographies, a new picture has emerged in the last decade of how the participants' individual dramas intersected with the larger picture of their subjects. This book illuminates what it felt like to live that experience, how going from joblessness to reporting on their own communities affected artists with varied visions, as well as what feelings such a passage involved: shame, humiliation, anger, excitement, nostalgia, and adventure. Also revealed is how the WPA writers anticipated and perhaps paved the way for the political movements of the following decades, including the Civil Rights movement, the Women's Rights movement, and the Native American rights movement.

Hollowing Out the Middle Patrick J. Carr, Maria J. Kefalas, 2009-10-01 Two sociologists reveal how small towns in Middle America are exporting their most precious resource: young people, and share what can be done to save these dwindling communities. In 2001, with funding from the MacArthur Foundation, sociologists Patrick J. Carr and Maria J. Kefalas moved to Iowa to understand the rural brain drain and the exodus of young people from America's countryside. They met and followed working-class stayers, ambitious and college-bound achievers, seekers who head off to war to see what the world beyond offers, and returners who eventually circle back to their hometowns. What surprised them most was that adults in the community were playing a pivotal part in the town's decline by pushing the best and brightest young people to leave. In a timely new afterword, Carr and Kefalas address the question: so what can be done to save our communities? They profile the efforts of dedicated

community leaders actively resisting the hollowing out of Middle America These individuals have creatively engaged small town youth stayers and returners seekers and achievers and have implemented a variety of programs to combat the rural brain drain These stories of civic engagement will certainly inspire and encourage readers struggling to defend their communities

Poems on Civility S T Kimbrough,2025-06-24 Although civility may sometimes have been viewed as formal politeness and courtesy in one s speech and behavior its meaning has become more complex in contemporary society It certainly still has to do with how we speak and act but these are overlaid with political and partisan meanings and a variety of media and social media options *Poems on Civility* says nothing new about diverse types of civility or lack of them however it accentuates many emphases related to civility with words phrases images metaphors and similes that may help readers to think more vividly and act more intentionally to create a more civil society The four sections follow a progression *Civility Starts with You Civility Depends on You Civility Must Be Discussed and Civility Must Be Done* Civility requires creative thinking and creative action Above all civility expects a just and equal regard of all human beings Recognition of wrong directed activities of leaders is one thing but civility must be thought through discussed and acted upon There is always the tendency of autocrats and anarchists to take away the rights of free speech and discussion If the art of listening carefully to one another is lost civility vanishes *Man with a Pan* John Donohue,2025-05-01 Look who s making dinner Twenty one of our favorite writers and chefs expound upon the joys and perils of feeding their families Mario Batali s kids gobble up monkfish liver and foie gras Peter Kaminsky s youngest daughter won t eat anything at all Mark Bittman reveals the four stages of learning to cook Stephen King offers tips about what to cook when you don t feel like cooking And Jim Harrison shows how good food and wine trump expensive cars and houses This book celebrates those who toil behind the stove trying to nourish and please Their tales are accompanied by more than sixty family tested recipes time saving tips and cookbook recommendations as well

as New Yorker cartoons Plus there are interviews with homestyle heroes from all across America a fireman in Brooklyn a football coach in Atlanta and a bond trader in Los Angeles among others What emerges is a book not just about food but about our changing families It offers a newfound community for any man who proudly dons an apron and inspiration for those who have yet to pick up the spatula All Eyes are Upon Us Jason Sokol, 2014-12-02 The Northeastern United States home to abolitionism and a refuge for blacks fleeing the Jim Crow South has had a long and celebrated history of racial equality and political liberalism After World War II the region appeared poised to continue this legacy electing black politicians and rallying behind black athletes and cultural leaders However as historian Jason Sokol reveals in All Eyes Are Upon Us these achievements obscured the harsh reality of a region riven by segregation and deep seated racism White fans from across Brooklyn Irish Jewish and Italian came out to support Jackie Robinson when he broke baseball's color barrier with the Dodgers in 1947 even as the city's blacks were shunted into segregated neighborhoods The African American politician Ed Brooke won a senate seat in Massachusetts in 1966 when the state was 97% white yet his political career was undone by the resistance to busing in Boston Across the Northeast over the last half century blacks have encountered housing and employment discrimination as well as racial violence But the gap between the northern ideal and the region's segregated reality left small but meaningful room for racial progress Forced to reckon with the disparity between their racial practices and their racial preaching blacks and whites forged interracial coalitions and demanded that the region live up to its promise of equal opportunity A revelatory account of the tumultuous modern history of race and politics in the Northeast All Eyes Are Upon Us presents the Northeast as a microcosm of America as a whole outwardly democratic inwardly conflicted but always striving to live up to its highest ideals
