Center of Military History,1947 St Lô (7 July - 19 July, 1944) [Illustrated Edition] Anon.,2014-06-13 Includes 54 contemporary photos illustrations and 26 highly detailed maps ST L capital of the department of Manche can be used as one symbol for First U S Army s victory in a most difficult and bloody phase of the Campaign of Normandy the Battle of the Hedgerows during the first three weeks of July 1944 Other names figure in this battle La Haye du Puits P riers Hill 192 like St L will be remembered by First Army soldiers from a background of stubborn struggle for gains too often measured in terms of a few hundred yards or of two or three fields conquered against a bitterly resisting enemy Much more was at stake in the Battle of the Hedgerows than possession of a communications center on the Vire River In June First Army and British Second Army had won their beachheads and had captured Cherbourg 26 June Supplies and reinforcements were building up for a powerful offensive designed to break out of the Normandy pocket and scheduled to be mounted in the First Army zone But more room and better jump off positions for the crucial offensive were needed before this blow could be delivered The attack that began in early July was planned to gain this ground on a front of 25 miles Four corps employing ultimately 12 divisions were involved in the effort All these units faced similar problems of advance and all contributed to the measure of success achieved Therefore in the larger tactical sense it would be unfair to identify the Battle of the Hedgerows with St L and later military studies treating the Campaign of Normandy in different scope will give the operation in truer proportions Here one phase of the hedgerow battle can be used to illustrate in tactical detail the character of the larger action A gripping account of the attempts by the Allies to break out from the Normandy bridgehead **St-Lô (7 July-19 July 1944)**. European campaign at the time when the Allies considered their cross Channel beachhead well established on the Continent How the Allies exploited the initial success of their landings and drove from the shores of Normandy to the German border is the subject of the volume The events of the period comprise a rich variety of military experience Virtually every sort of major operation involving co ordinated action of the combined arms is found the grueling positional warfare of the battle of the hedgerows the breakthrough of the main enemy position exploitation encirclement and pursuit as well as a number of actions falling under the general heading of special operations an assault river crossing the siege of a fortress and night combat among others In their variety and complexity these operations frequently bring into sharp focus the delicate problems of coalition warfare
