José A. Blanco, Philip Redwine Donley

Vistas 4th Edition Blanco Donley:

The Handbook of Technology and Second Language Teaching and Learning Carol A. Chapelle, Shannon Sauro, 2017-06-28 The Handbook of Technology and Second Language Teaching and Learning presents a comprehensive exploration of the impact of technology on the field of second language learning The rapidly evolving language technology interface has propelled dramatic changes in and increased opportunities for second language teaching and learning Its influence has been felt no less keenly in the approaches and methods of assessing learners language and researching language teaching and learning Contributions from a team of international scholars make up the Handbook consisting of four parts language teaching and learning through technology the technology pedagogy interface technology for L2 assessment and research and development of technology for language learning It considers how technology assists in all areas of language development the emergence of pedagogy at the intersection of language and technology technology in language assessment and major research issues in research and development of technologies for language learning It covers all aspects of language including grammar vocabulary reading writing listening speaking pragmatics and intercultural learning as well as new pedagogical and assessment approaches and new ways of conceiving and conducting research and development The Handbook of Technology and Second Language Teaching and Learning demonstrates the extensive multifaceted implications of technology for language teachers learners materials developers and researchers New Methodological Approaches to Foreign Language Teaching Thomas H. Schmidt, Laura Torres-Zúñiga, 2017-06-23 This volume explores how the traditional academic disciplines of linguistics translation literature and cultural studies can contribute to or be integrated into the teaching of a foreign language by means of innovative methodologies techniques and instruments The book begins with a selection of essays on applied linguistics that share some significant findings in the context of second or foreign language acquisition It then examines the ways in which linguistics translation theory literature and cultural studies are brought into the foreign language classroom not just as objects of study but also as vehicles for language learning By presenting studies on four main foreign languages English Spanish French and German the collection offers to the foreign language profession an opportunity for the sharing and comparison of strategies across languages at both the secondary and higher education level The text is a valuable resource for language teachers with a more philologically oriented background who would like to learn how to apply their research knowledge and experience to the design and implementation of new methodological approaches **Blended Basic Language Courses** Hope Anderson, 2018-03-15 Blended Basic Language Courses Design Pedagogy and Implementation examines lower division blended courses in fifty two second language programs at U S colleges and universities Drawing upon a large scale original study of language faculty instructors program directors and students who have experience with blended classes of thirteen languages other than English this volume provides new information about the breadth of blended course designs and implementation strategies in use in basic language programs

The mixed methods study conducted with surveys and interviews recommends ways that institutions departments and instructors can make the most of digital pedagogy to support student learning both in officially blended courses and at all levels of technological integration from fully face to face to fully online

Current Perspectives in Spanish Lexical Development Irene Checa-García, Laura Marqués-Pascual, 2023-10-04 New quantitative methodology and the development of corpus and experimental linguistics tools have recently made researching lexical comprehension and production more accessible While several tools and data sets are available in English Coh metrix CELEX and a few other languages the development of resources and empirical research is still lacking in Spanish This volume brings together original empirical research and theoretical perspectives that examine lexical development in Spanish L1 L2 and L3 with a focus on different teaching approaches and textbook coverage of Spanish lexicon in L2 curricula and the use of corpus linguistics in methodological investigations Some questions addressed include the role of lexical development in mapping grammatical acquisition phases the potential transfers of L1 to L2 lexical abilities the effect of explicit vocabulary learning techniques in L2 how affective meaning modulates L2 acquisition or how a typological understanding of lexical organization can help in teaching more effectively the lexicon of a language among many others The book offers an overview of what is currently being done in the field of Spanish lexical acquisition through a myriad of approaches and topics
