Women and New Hollywood Aaron Hunter, Martha Shearer, 2023-05-12 The 1970s has often been hailed as a great moment for American film as a generation of New Hollywood directors like Scorsese Coppola and Altman offered idiosyncratic visions of what movies could be Yet the auteurist discourse hailing these directors as the sole authors of their films has obscured the important creative roles women played in the 1970s American film industry Women and New Hollywood revises our understanding of this important era in American film by examining the contributions that women made not only as directors but also as screenwriters editors actors producers and

critics Including essays on film history film texts and the decade s film theory and criticism this collection showcases the rich and varied cinematic products of women s creative labor as well as the considerable barriers they faced It considers both women working within and beyond the Hollywood film industry reconceptualizing New Hollywood by bringing it into dialogue with other American cinemas of the 1970s By valuing the many forms of creative labor involved in film production this collection offers exciting alternatives to the auteurist model and new ways of appreciating the themes and aesthetics of 1970s American film

The Critics' Canon Richard Hudson Palmer, 1988-10-19 Palmer clearly states that his purpose is to explain 1the ways of critics to theatre practitioners the ways of theatre to inexperienced reviewers and the dynamic convergence of theatre and critic to anyone interested in theatre The work is a well written primer for writers and it will be useful primarily to performers who object to unfavorable criticism without understanding the nature and purpose of reviewing Accessible to general readers and undergraduates Choice Palmer begins with an examination of the theatrical review as a medium for informing and entertaining theatregoers documenting events of artistic of community importance and supporting theatre through critical evaluation and publicity He next comments on how journalistic pressures affect reviewers Citing brief examples from hundreds of reviews the author devotes a chapter to each of the elements that needs to be covered in a review including performers script direction music and choreography together with stage and lighting design and other physical aspects of the production The final chapter develops criteria for assessing the strengths and weaknesses of a theatrical review based on aesthetic standards the cultural tastes of theatregoers and the interests of the community Palmer s experience as both a theatre professional and a journalist gives him an intimate understanding of the antagonism that often develops between reviewers and those who feel themselves to be the target of irresponsible criticism His book provides a clear perspective on theatrical matters and guidelines that will help to improve standards of reviewing and create an appreciation of the essential relationship between the theatre and its critics
