Visions of Grace William George David Sykes, 1997 [Silent World of Visions](#) Mosebodi Betty Metswamere, 2012-05-03 About the book This is a true story of a little girl Sibú who was totally consumed by the beauty and the silence of the world of the unseen nothing of this material world seemed to make sense to her She kept secrets about her life and her spiritual relationship with God She explored the spiritual world through dreams and visions and that was her way of communicating with God Her spiritual exploration denied her of her childhood and other life experiences that most children of her age had Sibú spent most of her time in isolation communicating with her imaginary friend God This book reveals how children can keep secrets about their lives their personal and spiritual relationship with God As she develops into a young woman she gets married and her life changes dramatically She becomes trapped by the luxuries of the material world and completely forgets about her imaginary friend After some time God seizes all the beauties and luxuries which separated Sibú from Him Her whole luxurious life turns into a nightmare Finally Sibú repents and accepts Gods calling Mosebodi1 ymail com

Visions of Deliverance Mayte Green-Mercado, 2020-01-15 In Visions of Deliverance Mayte Green Mercado traces the circulation of Muslim and crypto Muslim apocalyptic texts known as joferes through formal

and informal networks of merchants Sufis and other channels of diffusion among Muslims and Christians across the Mediterranean from Constantinople and Venice to Morisco towns in eastern Spain The movement of these prophecies from the eastern to the western edges of the Mediterranean illuminates strategies of Morisco cultural and political resistance reconstructing both productive and oppositional interactions and exchanges between Muslims and Christians in the early modern Mediterranean Challenging a historiography that has primarily understood Morisco apocalyptic thought as the expression of a defeated group that was conscious of the loss of their culture and identity Green Mercado depicts Moriscos not simply as helpless victims of Christian oppression but as political actors whose use of end times discourse helped define and construct their society anew Visions of Deliverance helps us understand the implications of confessionalization forced conversion and assimilation in the early modern period and the intellectual and theological networks that shaped politics and identity across the Mediterranean in this era

Visions of Grace First Presbyterian Church (Tulsa, Okla.),2017 The Grasp That Reaches beyond the Grave Venetria K. Patton,2013-01-01 Explores black women writers treatment of the ancestor figure The Grasp That Reaches beyond the Grave investigates the treatment of the ancestor figure in Toni Cade Bambara s The Salt Eaters Paule Marshall s Praisesong for the Widow Phyllis Alesia Perry s Stigmata and A Sunday in June Toni Morrison s Beloved Tananarive Due s The Between and Julie Dash s film Daughters of the Dust in order to understand how they draw on African cosmology and the interrelationship of ancestors elders and children to promote healing within the African American community Venetria K Patton suggests that the experience of slavery with its concomitant view of black women as natally dead has impacted African American women writers emphasis on elders and ancestors as they seek means to counteract notions of black women as somehow disconnected from the progeny of their wombs This misperception is in part addressed via a rich kinship system which includes the living and the dead Patton notes an uncanny connection between depictions of elder ancestor and child figures in these texts and Kongo cosmology These references suggest that these works are examples of Africanisms or African retentions which continue to impact African American culture

Visions in Exile Malcolm K. Read,1990 Malcolm K Read employs a psychoanalytic model which sees civilization as a manner of instinctual renunciation in this analysis of selected texts from the sixteenth seventeenth and eighteenth centuries Focusing on their moments of silence and contradiction he demonstrates that certain attitudes toward the body expressed in these texts have a basis albeit unconscious in a motivation which is ultimately political The central topics deeply intertwined thematically and theoretically relate to the nature and development of language to the Baroque art of Gongora and Quevedo to Feijoo s defense of the rationalist subject set against Torres Villarroel s subversion of the same and to the neo classical aesthetics of Luzan and Arteaga The result is an interdisciplinary approach that challenges traditional assumptions in both literary criticism and linguistic historiography
