Yale University's history department widely regarded as the nation's best where he became both influential and popular and where his students included one future U.S. president as well as others who aspired to the office. He reveals much about the inner workings of Ivy League education and tells of controversies over the Vietnam War and the Black Panthers, his role in Eugene McCarthy's presidential campaign and how he searched for common ground between reactionary faculty and radical students. More than a recounting of a singular life, Blum's story explains how political history was researched and written during the second half of the twentieth century, describing how the discipline evolved, gained ascendancy and was challenged as historical fashions changed. It also offers revealing glimpses of such prominent academics as Kingman Brewster, Arthur Schlesinger Jr., C. Vann Woodward and William Sloan Coffin. Over a distinguished career, Blum witnessed considerable change in elite educational institutions where minorities and women were grossly underrepresented when he first entered academia. In a memoir brimming with insight and laced with humor, he looks back at the academy not a refuge from reality but an alternative reality as he reflects upon his intellectual journey and his contributions to the study and writing of twentieth-century American history.

Chinese Heritage Sites and their Audiences Rouran Zhang, 2020-03-17

Chinese Heritage Sites and their Audiences provides a Chinese perspective on tourists' relationship to heritage. Contributing to ongoing debates within heritage and tourism studies, the book offers insights into how and why visitors engage with such sites. Drawing on interviews with domestic tourists, local residents and heritage officials at the World Heritage sites of West Lake Xidi and Hongcun, Zhang argues that tourists have agency when they visit heritage sites: they are doing cultural, social and emotional work whilst also negotiating cultural meanings. Providing an examination of the complex interactions between locals and tourists, the author then considers how tourists navigate and interpret heritage sites. Finally, Zhang examines whether the government or locally controlled tourism enterprises are more effective in facilitating meaningful cultural interaction between tourists and locals. Overall, the book demonstrates the interrelation between tourism and heritage and the tensions that are created when the ways in which sites are used differ from the expectations of UNESCO and national or regional site managers.

Chinese Heritage Sites and their Audiences pays particular attention to ongoing debates about heritage performances, the importance of emotions and the agency of tourists and will thus appeal to academics and students engaged in the study of heritage, tourism, landscape, architecture and anthropology.
