The Fourfold Office of Christ John C. Nugent, 2024-01-02 How should the church relate to the world? For over seven decades the classic categories of Christ and Culture have monopolized Christian answers to this question. Nearly everyone bought into H. Richard Niebuhr's lofty world-transforming vision. And now that everyone's trying to make the world better, we keep clashing about how to do so. We all want God's will to be done on earth as in heaven, but deep disagreements about how to get there keep fracturing Christ's body and subverting our testimony. Jesus was right: our witness to the world depends on our unity and our love for one another. In recent years we've been failing at both. Political partisanship and constant infighting have wounded the vulnerable and driven countless people from the pews. It's time to revisit church-world relations with fresh eyes and a stubborn commitment to God's revelation in Scripture. Offering a new typology for the twenty-first century, *The Fourfold Office of Christ* lucidly examines the most common ways of relating church and world. John C. Nugent employs the memorable categories of prophet, priest, king, and servant to showcase the strengths and weaknesses of various approaches. He then charts a rigorously scriptural and surprisingly hopeful path forward.

Research on Technology in English Education Carl A. Young, Sara Kajder, 2013-03-01 This book brings together the voices of leading English Education researchers who work to offer views into the changing landscape of English as a result of the use of digital media in classrooms, out-of-school settings, universities, and other contexts in which readers and writers work. But as in most useful texts, the purpose is more nuanced and far-reaching than simply offering a glimpse into where we currently find ourselves as

a field In sum the collection brings together and interweaves what we are coming to know and understand about teaching English within a shifting digital landscape as well as the implications for teacher education and the discipline of English Education specifically The intended audience for this particular book is English educators doctoral candidates in the field of English education researchers and scholars in the field and English language arts teachers especially those interested in the impact digital technologies can have in our field *Public Papers of the Presidents of the United States* United States.
