Leonard Bernstein: West Side Story Nigel Simeone,2017-07-05 One of the Broadway musicals that can genuinely claim to have transformed the genre West Side Story has been featured in many books on Broadway but it has yet to be the focus of a scholarly monograph Nigel Simeone begins by exploring the long process of creating West Side Story including a discussion of Bernstein s sketches early drafts of the score and script as well as cut songs The core of the book is a commentary on the music itself West Side Story is one of the very few Broadway musicals for which there is a complete published orchestral score as well as two different editions of the piano vocal score The survival of the original copied orchestral score and the reminiscences of Sid Ramin and Irwin Kostal reveal details of the orchestration process and the extent to which Bernstein was involved in this Simeone s commentary considers musical characteristics and compositional techniques used to mirror the drama for example the various uses of the tritone motivic development the use and reinvention of Broadway and other conventions the creation of dramatic continuity in the score through the use of motifs

and other devices the unusual degree of dissonance and rhythmic complexity at least for the time and the integration of Latin American dance forms Mambo Huapango and so on Simeone also considers the reception of West Side Story in the contemporary press The stir the show caused included the response that it was the angular edgy score that made it a remarkable achievement Not all reviews were uncritical Finally the book looks in detail at the making of the original Broadway cast recording made in just one day included on the accompanying CD

The Films of Robert Wise Richard C. Keenan, 2007-08-22 From his early days as a film editor at RKO studios where he helped Orson Welles shape Citizen Kane to his success as a director and producer of musical blockbusters of the 1960s Robert Wise had a long and illustrious film career Unlike contemporaries such as Alfred Hitchcock John Ford or Howard Hawks however Wise's films lack any clearly discernible characteristics to signify his work There are few striking camera angles or visual flourishes that might distract from the primary obligation to present the story And like Hawks Wise never specialized in one or two genres but brought his directing skills to all manner of films His work as a director resists auteur categorization and that is a chief reason why some critics have been unduly negative in their consideration of his work In *The Films of Robert Wise* Richard Keenan examines the nearly forty features that represent the director's career from *Curse of the Cat People* in 1944 to *A Storm in Summer* 2001 the only television production Wise ever directed Keenan offers a reappraisal of Wise's films so that the true quality of his work can be better appreciated Keenan argues that if there was a flaw in Robert Wise as a director it was that he lacked the ego and temperament of the artist which was not necessarily a flaw at all Indeed Wise was a conscientious craftsman who saw his work not primarily as a vehicle for his own ideas and visual style but as an opportunity to present narrative that quite simply engages informs and entertains It was this perspective that helped produce a number of memorable films over the years including the gritty noir *Born to Kill* the one two punch of *The Set Up* and *Somebody Up There Likes Me* the sci fi prophecy *The Day the Earth Stood Still* and the gripping indictment of capital punishment *I Want to Live* classics all Wise also won a pair of Oscars for two of the most

memorable not to mention successful musicals of all time West Side Story and The Sound of Music Drawing on more than 30 hours of interviews with Wise as well as additional interviews with a number of his collaborators Keenan offers a welcome reassessment of the director's work In his analysis of each film Keenan reveals both Wise the craftsman and the artist In doing so The Films of Robert Wise finally confers upon this underappreciated director the recognition he deserves **Movie Awards** Thomas O'Neil,2003 Every year all of the best pictures jump into a derby where they jockey for a dozen gold trophies before reaching the finish line at the Academy Awards Here Tom O Neil offers an inside scoop on the year by year winners and losers of these top races Academy Awards Golden Globe New York Film Critics Circle Los Angeles Film Critics National Society of Film Critics Screen Actors Guild Directors Guild of America Writers Guild of America Producers Guild of America Independent Spirit Sundance Film Festival and National Board of Review Also includes facts stats and photos **The Great White Way** Warren Hoffman,2014-02-18 Broadway musicals are one of America's most beloved art forms and play to millions of people each year But what do these shows which are often thought to be just frothy entertainment really have to say about our country and who we are as a nation The Great White Way is the first book to reveal the racial politics content and subtexts that have haunted musicals for almost one hundred years from Show Boat 1927 to The Scottsboro Boys 2011 Musicals mirror their time periods and reflect the political and social issues of their day Warren Hoffman investigates the thematic content of the Broadway musical and considers how musicals work on a structural level allowing them to simultaneously present and hide their racial agendas in plain view of their audiences While the musical is informed by the cultural contributions of African Americans and Jewish immigrants Hoffman argues that ultimately the history of the American musical is the history of white identity in the United States Presented chronologically The Great White Way shows how perceptions of race altered over time and how musicals dealt with those changes Hoffman focuses first on shows leading up to and comprising the Golden Age of Broadway 1927 1960s then turns his attention to the revivals and nostalgic vehicles that defined the final quarter of the twentieth century He offers entirely new and surprising takes on shows from the American musical canon Show Boat 1927 Oklahoma 1943 Annie Get Your Gun 1946 The Music Man 1957 West Side Story 1957 A Chorus Line 1975 and 42nd Street 1980 among others New archival research on the creators who produced and wrote these shows including Leonard Bernstein Jerome Robbins Stephen Sondheim and Edward Kleban will have theater fans and scholars rethinking forever how they view this popular American entertainment *Kinderculture* Shirley R.
