Developing resilient and secure organizations depends on the integration of effective leadership and security measures. This sets the tone for accountable organizational culture while implementing strategies that anticipate, respond to, and recover from disruptions. Comprehensive security measures form organizational defense strategies. When these elements work together, organizations can withstand challenges in the face of evolving threats.

Developing Resilient and Secure Organizations: Leadership and Security Measures explores effective management and security practices for businesses and organizations. It delves into the effects of intelligent technologies for crisis management, organizational development, and employee engagement. This book covers topics such as crisis management, information security, and organizational culture and is a useful resource for business owners, computer engineers, security professionals, academicians, researchers, and data scientists.

Advances in Manufacturing, Production Management and Process Control by Stefan Trzcielinski, Beata Mrugalska, Waldemar Karwowski, Emilio Rossi, and Massimo Di Nicolantonio (2021-07-03) provides readers with a timely snapshot of human factors research and methods fostering a better integration of technologies and humans during the whole manufacturing cycle, giving a special emphasis to the quality and safety of the industrial environment for workers, the efficiency of the manufacturing processes, the quality of the final product, and its distribution to and use by the customers. It discusses timely issues relating to the automation of the manufacturing processes and the challenges imposed by the implementation of Industry 4.0, additive manufacturing, and 3D printing technologies. Contributions cover a range of industrial sectors such as the automotive, health, and construction ones, highlighting both organizational and engineering solutions fostering sustainability, globalization, customization, workers' well-being, and consumers' satisfaction, among other issues. Based on the AHFE 2021 Conferences on Human Aspects of Advanced Manufacturing, Advanced Production Management and Process Control, and Additive Manufacturing Modeling Systems and 3D Prototyping held virtually on 25-29 July 2021 from USA, this book merges ergonomic research and technical know-how in the field of manufacturing and product design, addressing a wide range of engineers, designers, and professionals dealing with the integration of technologies and humans in the factories of the future.
