**The Sten Gun** Leroy Thompson, 2012-09-20 The Sten submachine gun officially the Carbine Machine Sten was developed to fulfill the pressing British need for large quantities of cheaply produced weapons after Dunkirk when German invasion was a very real possibility Over four million were built during World War II and the Sten was widely used by airborne troops tankers and others who needed a compact weapon with substantial firepower It proved especially popular with Resistance fighters as it was easy to conceal deadly at close range and could fire captured German ammunition with a design so simple that Resistance fighters were able to produce them in bicycle shops Featuring vivid first hand accounts specially commissioned full colour artwork and close up photographs this is the fascinating story of the mass produced submachine gun that provided Allied soldiers and Resistance fighters with devastating close range firepower **Churchill's Army**

Stephen Bull, 2016-09-22 Winston Churchill Britain's iconic war time Prime Minister is inextricably linked with the victorious British Army of 1939 to 1945 Yet hindsight propaganda and the imperative of the defeat of Hitler and Imperial Japan have led to a tendency to oversimplify the image of Churchill the war leader and his Army For whilst Churchill was undeniably a towering statesman his relations with both the Army and War Office were ambiguous and altered considerably not only with the progress of the Second World War but over decades In this comprehensive book Stephen Bull examines every aspect of the British Army during the Second World War and considers in detail the strengths and weaknesses of an organisation that was tested to its limits on many fronts but made an immense contribution to the successful Allied outcome The book explores the structure of military power from the men who ran it the Generals to the detail of the regiments they commanded It looks at the uniforms the soldiers wore and the badges and insignia they bore on their uniforms The weaponry Churchill's army used is discussed in detail from small arms including rifles bayonets grenades carbines and machine guns to the massed firepower of the artillery along with the increasing sophistication of tanks and other military vehicles during the period Finally the role of auxiliary and special forces and their contribution to the campaign is considered The comprehensive text is enhanced by more than 200 contemporary photographs **Britain's Final Defence** Dale Clarke, 2016-11-07 Known

affectionately as Dad's Army the Home Guard was Britain's very serious attempt to protect our shores from invasion by Nazi Germany in the Second World War In the Spitfire summer of 1940 all that the 1 million unpaid untrained part timers of the Local Defence Volunteers as the organisation was originally called wanted was a service rifle for each man but even that was too much for a country threatened by defeat to provide Britain's Final Defence is the first book to explore the efforts made to arm the home defence force between 1940 and 1944 and describe the full range of weaponry available for Britain's last stand against invading Axis forces *Small Arms of the World* Edward Clinton Ezell, Walter Harold Black Smith, Thomas M.

Pegg, 1993 Guide to global small arms weaponry [The Scourge of Soho](#) Dick Kirby, 2013-11-27 The Scourge of Soho describes the dramatic and eventful life of Detective Sergeant Harry Challenor MM and at the same time lifts the lid on front

line policing and the murky world of Soho criminals in the 1950s and 1960s Born into grinding poverty in 1922 Challenor fought with the Special Air Service during the Second World War being parachuted behind enemy lines captured twice escaping twice He was awarded the Military Medal Joining the post war Metropolitan Police Challenor spent four years with the elite Flying Squad before being sent to clear up crime in Soho Pimps racketeers and crooks were rounded up and often found themselves in possession of a bewildering assortment of armaments of which they denied all knowledge More sensible gangsters like Reg and Ron Kray took off as soon as his name was mentioned Challenor could not be frightened or bought off so the gang leaders put up a 1 000 reward to anyone who could frame him In the end it was not needed During a political demonstration in 1963 half bricks were planted on innocent protesters and three young policemen were imprisoned and Challenor certified as a paranoid schizophrenic and sent to a succession of psychiatric hospitals and care homes Policeman turned author Dick Kirby has interviewed former friends and colleagues of this determined but flawed character and has meticulously studied court records and official documents The result is a sensational and gripping account of the man who became The Scourge of Soho As featured in the East Anglian Daily Times Bury Mercury and Wolverhampton Magazine
