Translation Ali Alhaj, 2015-06 Translation strategies are the procedures employed by the translator to attempt a solution to the multifarious baffling problems with which translation is indubitably replete Malone 1988 p 78 defines translation The steps selected from a consciously known range of potential procedures taken to solve a translation problem which has been consciously detected and resulting in a consciously applied solution While some strategies are helpful others turn out to be of little avail It follows then that the translator has to sort out the wheat from the chaff in pursuit of a good translation Here the translator may utilize particular strategies in accordance with the method anticipated in the course of translation i e target orientedness or source orientedness Faced with differences in the extralinguistic reality of the two cultures or its lexical mapping the translator tries to reconcile them by relying on the following procedures borrowing definition literal translation substitution lexical creation omission and addition Three comments that need to be made by the researcher in connection with this list First not all of the procedures achieve cultural transfer in the sense of filling the gap but they all serve the purpose of achieving communicative equivalence in translation For instance substitution and omission certainly do not help to make members of the target culture aware of anything that their culture does not already possess and lexical creation is no more enlightening than the use of the source language expression unless accompanied by some other procedure that will make the particular extra linguistic feature part of their experiences Second combinations of procedures rather than single procedures are required for optimum transmission of cultural information e g borrowing and definition borrowing and substitution lexical creation and definition Third in planning his/her translation strategy the translator does not make a one time decision on how he/she will treat unmatched elements of culture rather even if the translator has established an overall order of preferences he/she usually makes a new decision for each element and for its each use in an act of communication rather even if he has established an overall order of preferences he usually makes a new decision for each such element and for each use in an act of communication Cohen 1990 p 78 365 Gems from the Quran, 2014-09-25 This anthology of 365 Gems from the Quran with brief explanatory notes enables readers to gain a clear idea of what the Quran says about The purpose behind the creation of man and the universe Concept and attributes of God in Islam Man's obligations toward God Man's obligations toward fellow human beings Man's social relations Man's final end Death and the Afterlife Gender equality How to co-exist peacefully with others The immense reward for charity justice and good conduct ABDUR RAHEEM KIDWAI is Professor of English at the Aligarh Muslim University India and Visiting Fellow School of English University of Leicester UK

MEANINGS OF THE HONORED QUR AN pdf *The Qur'an and Its Message Versus the Three Major Monotheistic Religions*
Joseph The Monotheist, 2024-09-22 Both the curious and the believer alike find themselves pondering the same question What is the Qur an and what is so special about the Qur an that drives almost one quarter of the world s population to believe in it The Qur an is not what one would consider an easy read whether talking about Arabic speaking peoples reading the Arabic Qur an or non Arabic speaking peoples reading translations of the text in other languages Most people think that reading the Qur an once or even several times readily enables them to understand what the Qur an is saying That surely would be true if one were a native Arabic speaker living in the space time of the revelation fourteen hundred years ago However for us living in other space time the present author assures the reader that that is not the case This book is part of a series It is the first volume of *The Qur anic Revelation A Reformed Understanding* published concurrently with the second and third volumes In this book the author argues that the religion of Islam is an unacceptable representation of the Qur anic revelation Furthermore that the religions based on God s revealed scriptures as we know them today including but not limited to the religion of Islam deviate from the essence of God s revelations mainly bringing Judaism and Christianity into the discussion The author puts forward his own interpretation of the Qur anic revelation and in this volume primarily addresses its inclusiveness aspect by exploring how the Qur an understands both inclusiveness and religion What Islam is the book talking about Is it one Islam that around one fourth of the world s population follows Are all of the commands in the Qur an of eternal applicability Did the Qur an come with a new religion and how did the Qur an define membership in the religion What impact did the Qur an have on the beliefs and practices of those who accepted the revelation from the peoples of previous scriptures in the space time of the Prophet yet as argued who at the same time maintained their religious identities This volume addresses these questions and a multitude of others This book is self contained It does not require the reader to have previous knowledge in any of the topics discussed The book discusses topics you do not find in your typical book about the Qur an or Islam It would interest those who want to learn about the Qur an and its message Among this group would be those searching for a reformed understanding of the Qur an and how it applies today those curious to learn how the Qur anic message affects followers of the previous revealed scriptures and those interested in monotheistic religions in general

Qur'ān Translation as a Modern Phenomenon El-Hussein A.Y. Aly, 2023-09-25 It is a well established fact nowadays that modernity impacts Islam but there has not been much focus on how modernity impacts the Qur'an the foundational text of Islam and the verbatim word of God This book argues that the early Muslim Quran translations into English are attempts to reconcile the Qur'an with modernity by producing translations that encompass modern concepts and interpretations of the Qur'an Are these modern concepts and interpretations valid or they alter the word of God This is the main question that the book attempts to answer particularly that these early translations have affected and still affect Quran translation
