Supreme Court David A Kaplan the former legal affairs editor of Newsweek shows how the justices subvert the role of the other branches of government and how we've come to accept it at our peril With the retirement of Justice Anthony Kennedy the Court has never before been more central in American life It is the nine justices who too often now decide the controversial issues of our time from abortion and same sex marriage to gun control campaign finance and voting rights The Court is so crucial that many voters in 2016 made their choice based on whom they thought their presidential candidate would name to the Court Donald Trump picked Neil Gorsuch the key decision of his new administration Brett Kavanaugh replacing Kennedy will be even more important holding the swing vote over so much social policy Is that really how democracy is supposed to work Based on exclusive interviews with the justices and dozens of their law clerks Kaplan provides fresh details about life behind the scenes at the Court Clarence Thomas's simmering rage Antonin Scalia's death Ruth Bader Ginsburg's celebrity Breyer Bingo the petty feuding between Gorsuch and the chief justice and what John Roberts thinks of his critics Kaplan presents a sweeping narrative of the justices' aggrandizement of power over the decades from Roe v Wade to Bush v Gore to Citizens United to rulings during the 2017-18 term But the arrogance of the Court isn't partisan Conservative and liberal justices alike are guilty of overreach Challenging conventional wisdom about the Court's transcendent power **The Most Dangerous Branch** is sure to rile both sides of the political aisle

Brown, 2012-01-01 Mbogo the Black Death which manifests itself in the African Cape buffalo now stood less than 12 feet away from me The cow and calf were too close for me to have time to be scared I would only have time to react on instinct if they came closer That is the type of excitement that every hunter dreams of and it is still possible in Africa today It is also one that I was fortunate enough to experience without any permanent ill effects Eighty percent or more of American hunters think that Africa is too expensive or off limits and that they will never have a chance to experience their own up close

and personal adventure in the African bushveld Safari 101 proves just the opposite Safari 101 is written for the hunter that has always considered Africa out of reach someone who has a spark of desire just waiting to be fanned into a flame American hunters spend thousands of dollars every year hunting at home Almost none of them know that for the price of a guided elk hunt in the western United States they can take an African Safari The myths of being too expensive and too difficult are firmly entrenched in many hunters minds Safari 101 has forty six hints dispersed throughout 11 chapters and proves these myths false Personal experiences are used to illustrate the value of each hint and to make each one easy to remember Safari 101 takes the author s experiences and what he learned from professional hunters and outfitters and puts the information in a logical progression that is entertaining as well as informative Safari 101 will help fan the spark into a flame
