Vaid Menon, 2023-04-18 Cosmetic surgery was once associated with a one size fits all approach modifying patients to conform to a single standard of beauty As this surgery has become more accessible worldwide changing beauty trends have led to a proliferation of beauty standards for members of different racial groups Alka V Menon enters the world of cosmetic surgeons journeying from a sprawling convention center in Kyoto to boutique clinics in the multicultural countries of the United States and Malaysia She shows how surgeons generate and apply knowledge using racial categories and how this process is affected by transnational clinical and economic exchanges Surgeons not only measure and organize but also elaborate upon racial differences in a globalized field of medicine Focusing on the role of cosmetic surgeons as gatekeepers and producers of desired appearances Refashioning Race argues that cosmetic surgeons literally reshape race both on patients bodies and at the broader level of culture Migrant Women of Johannesburg C. Kihato, 2013-11-07 Through rich stories of African migrant women in Johannesburg this book explores the experience of living between geographies Author Caroline Kihato draws on fieldwork and analysis to examine the everyday lives of those inhabiting a fluid location between multiple worlds suspended between their original home and an imagined future elsewhere A Curriculum for Plastic Surgery Edward Luce, 2025-05-27 This book offers a comprehensive curriculum on plastic surgery centered on adult learning principles The pedagogical structure includes a base of cognitive knowledge that consists of the entire spectrum of plastic surgery reconstructive and aesthetic a guide for an interactive discussion of each component of the knowledge base a set of multiple choice questions with a syllabus of explanation of correct and incorrect responses and clinical cases to illustrate each element Over one hundred modules constitute the curriculum all of which are grouped into thirteen general categories Each module includes a selected bibliography of relevant and contemporary readings a discussion guide of broad questions and answers for a faculty member to drive an interactive discussion of the module a set of multiple choice questions for each module to serve as a short written guiz and 1 3 cases that are utilized in a case base conference to discuss the practical application of cognitive knowledge to problem solving of a clinical scenario Finally a several page review of the particular case provides an optimal approach to diagnosis and treatment A Curriculum for Plastic Surgery provides an encyclopedic yet facile vehicle to deliver a comprehensive contemporary and interactive curriculum. The curriculum reflects the author's four decade long career in academic practice and teaching within this field Gendering Globalization on the Ground Gay Young, 2014-11-13 How has globalization worked for women working on the frontlines of neoliberalism on the Mexico US border This border divides US from Others and produces social inequalities that form a site where marginalized border women encounter the othering power of neoliberalism and confront inequalities of gender and class Within this context a critical comparison of socially similar women working either in export production industries or in small scale commerce and low level services in Ciudad Ju rez reveals how export factory work constrains women s empowerment at home as well as the wages they earn and the well being of their households This volume challenges the neoliberal rationale of empowering

women to support market growth and argues instead for understanding women s empowerment as a process of transformation from disempowerment by gender power relations to challenging masculinist domination in households and ultimately the economy and society Because structures of gender and globalization are mutually constituted women s empowerment as gender democracy is integral to producing alternative democratic globalization Using a feminist methodology that gives attention to the standpoint of women located on the downside of social hierarchies and takes into account strategically diverse points of view this study develops analysis to counter neoliberal globalization as it touches down in the lives of ordinary women and men on the border and beyond A Comprehensive Guide to Male Aesthetic and Reconstructive Plastic Surgery Seth R.
