Competition Law's Innovation Factor Viktoria H S E Robertson, 2020-02-06 In recent years market definition has come under attack as an analytical tool of competition law Scholars have increasingly questioned its usefulness and feasibility That criticism comes into sharper relief in dynamic innovation driven markets which do not correspond to the static markets on which the concept of the relevant market was modelled This book explores that controversy from a comparative legal perspective taking into account both EU competition and US antitrust law It examines the manifold ways in which courts and competition authorities in the EU and US have factored innovation related considerations into market delineation covering innovative product markets product differentiation future markets issues going beyond market definition proper such as innovation competition innovation markets and potential competition intellectual property rights innovative aftermarkets and multi sided platforms This book

finds that going forward the role of market definition in dynamic contexts needs to focus on its function of market characterisation rather than on the assessment of market power Jurists and Legal Science in the History of Roman Law Fara Nasti, Aldo Schiavone, 2021-10-10 This book provides a new approach to the study of the History of Roman Law It collects the first results of the European Research Council Project *Scriptores iuris Romani* dedicated to a new collection of the texts of Roman jurisprudence highlighting important methodological issues together with innovative reconstructions of the profiles of some ancient jurists and works Jurists were great protagonists of the history of Rome both as producers and interpreters of law since the Republican Age and as collaborators of the principes during the Empire Nevertheless their role has been underestimated by modern historians and legal experts for reasons connected to the developments of Modern Law in England and in Continental Europe This book aims to address this imbalance It presents an advanced paradigm in considering the most important aspects of Roman law the Justinian Digesta and other juridical late antique anthologies The work offers an historiographic model which overturns current perspectives and makes way for a different path for legal and historical studies Unlike existing literature the focus is not on the Justinian Codification but on the individualities of ancient Roman Jurists As such it presents the actual legal thought of its experts and authors the ancient *iuris prudentes* The book will be of interest to researchers and academics in Classics Ancient History History of Law and contemporary legal studies
