BOOK JACKET Against Anarchy Cord-Christian Casper, 2020-08-24 Against Anarchy investigates the function of Anarchism in Early Modernist political fiction The study explains how political novels from 1886 to 1911 narrate and evaluate the function of Anarchists as embodiments of a radical space beyond politics The literary prevalence of Anarchists has so far not been connected systematically to its literary and political functions The study addresses this research gap in detailed analyses of a radical theme in narratives by Joseph Conrad Henry James and G K Chesterton It shows that each novel presents strategies of demarcation that allow turn of the century Britain to project its cultural anxieties upon an imagined other the dreaded figure labelled Anarchist The political radical is set up as the foil against which comforting self descriptions can be maintained Rather than merely reproducing this boundary work however the novels also evaluate its function both for the respective political system and for their own narrative capabilities and present the consequences incurred by the loss of an anarchist outside Against Anarchy is a thorough cultural historiography of the politically other and marginal At the same time the study demonstrates that close attention to the specific literary image of Anarchism allows for a re evaluation of political thought beyond its immediate historical moment a literary political theory in its own right

Chesterton and Tolkien as Theologians Alison Milbank, 2009-01-01 This book takes Chesterton's natural theology through fairytales seriously as a theological project appropriate to an intellectual attempt to return to faith in a secular age. It argues that Tolkien's fiction makes sense also as the work of a Catholic writer steeped in Chestertonian ideas and sharing his literary theological poetics. While much writing on religious fantasy moves quickly to talk about wonder, Milbank shows that this has to be hard won and that Chesterton is more akin to the modernist writers of the early twentieth century who felt quite dislocated from the past. His favoured tropes of paradox, defamiliarization and the grotesque have much in common with writers like T. S. Eliot, Ezra Pound and James Joyce and their use of the demotic as well as the mythic method. Using Chesterton's literary rhetoric as a frame, the book sets out to chart a redemptive poetics that first decentres the reader from his habitual perception of the world, then dramatizes his self-alienation through the grotesque, before finding in that very alienation a sort of pharmakon through paradox and an embrace of difference. The next step is to change one's vision of the world beyond the self through magic, which paradoxically is the means by which one can reconnect with the physical world and remove the fetishism and commodification of the object. Chesterton's theology of gift is the means in which this magic becomes real and people and things enter into reciprocal relations that reconnect them with the divine.
