The National Interest May June 2012 119:

Maxwell's Demon and the Golden Apple Randall L. Schweller, 2014-05-01 Mixing myth entropy and Angry Birds Randall Schweller brings a novel perspective to international studies Just what exactly will follow the American century This is the question Randall L Schweller explores in his provocative assessment of international politics in the twenty first century Schweller considers the future of world politics correlating our reliance on technology and our multitasking distracted disorganized lives with a fragmenting world order He combines the Greek myth of the Golden Apple of Discord which explains the start of the Trojan War with a look at the second law of thermodynamics or entropy In the coming age Schweller writes disorder will reign supreme as the world succumbs to entropy an irreversible process of disorganization that governs the direction of all physical changes taking place in the universe Interweaving his theory of global disorder with issues on the world stage coupled with a disquisition on board games and the cell phone app Angry Birds Schweller's thesis yields astonishing insights Maxwell's Demon and the Golden Apple will appeal to leaders of multinational corporations and government programs as well as instructors of undergraduate courses in international relations

Burdens of Freedom Lawrence M. Mead, 2019-04-23 Burdens of Freedom presents a new and radical interpretation of America and its challenges The United States is an individualist society where most people seek to realize personal goals and values out in the world This unusual inner driven culture was the chief reason why first Europe then Britain and finally America came to lead the world But today our deepest problems derive from groups and nations that reflect the more passive deferential temperament of the non West The long term poor and many immigrants have difficulties assimilating in America mainly because they are less inner driven than the norm Abroad the United States faces challenges from Asia which is collective minded and also from many poorly governed countries in the developing world The chief threat to American leadership is no longer foreign rivals like China but the decay of individualism within our own society The great divide is between the individualist West for which life is a project and the rest of the world in which most people seek to survive rather than achieve This difference although clear in research on world cultures has been ignored in virtually all previous scholarship on American power and public policy both at home and abroad Burdens of Freedom is the first book to recognize that difference It casts new light on America's greatest struggles It re evaluates the entire Western tradition which took individualism for granted How to respond to cultural difference is the greatest test of our times

Chaos in the Liberal Order Robert Jervis, Francis J. Gavin, Joshua Rovner, Diane N. Labrosse, 2018-07-17 Donald Trump's election has called into question many fundamental assumptions about politics and society Should the forty fifth president of the United States make us reconsider the nature and future of the global order Collecting a wide range of perspectives from leading political scientists historians and international relations scholars Chaos in the Liberal Order explores the global trends that led to Trump's stunning victory and the impact his presidency will have on the international political landscape Contributors situate Trump among past

foreign policy upheavals and enduring models for global governance seeking to understand how and why he departs from precedents and norms The book considers key issues such as what Trump means for America's role in the world the relationship between domestic and international politics and Trump's place in the rise of the far right worldwide It poses challenging questions including Does Trump's election signal the downfall of the liberal order or unveil its resilience What is the importance of individual leaders for the international system and to what extent is Trump an outlier Is there a Trump doctrine or is America's president fundamentally impulsive and scattershot The book considers the effects of Trump's presidency on trends in human rights international alliances and regional conflicts With provocative contributions from prominent figures such as Stephen M Walt Andrew J Bacevich and Samuel Moyn this timely collection brings much needed expert perspectives on our tumultuous era

Communitarian Foreign Policy Nikolas K. Gvosdev, 2017-07-05 This volume establishes Amitai Etzioni's communitarian approach to international relations as a distinct school of American foreign policy thought Nikolas K Gvosdev systematically evaluates Etzioni's ideas tracing their origins during the Cold War and their relevance to current challenges in Asia and the Middle East and considering their strengths and weaknesses Etzioni agrees with liberal internationalists who believe that traditional notions of state sovereignty are eroding and that a new set of global norms is required However he argues against the imposition of Western policies on the rest of the world which he sees as a recipe for conflict which the United States cannot afford He warns against the post Cold War triumphalism arguing that it undercuts efforts to find necessary common ground with both Russia and China An enduring and stable global architecture cannot be maintained unless it appeals to the interests of a broad community of nations The trust that is needed for forming closer associations between nations and to have a productive dialogue on human rights can only come about through the voluntary coordination of states forced to combat an increasing array of transnational threats

Power Transition and International Order in Asia Peter Shearman, 2013-09-23 This edited volume examines how the transition and diffusion of power in global politics is impacting on stability and order in Asia Both in the academic field of International Relations IR and among policymakers the big question today concerns the rise of China the relative decline of the United States and the increasing importance of Asia in global politics The level of impact the international power transition will have in the region remains unclear but observers agree that Asia is a potential tinderbox for crises and conflict This volume brings

together leading scholars from around the world to assess current thinking in IR on these issues The authors apply appropriate theories and methods of analysis in their specific area of expertise to examine the likely effects of the changing global power distribution on Asia There is also said to be an ongoing diffusion of power away from states to non state actors in the region hence in addition to examining changing relations between the Great Powers the book will also assess the implications that other actors from terrorist groups insurgents and organised crime syndicates could have on stability and order This book will be of much interest to students of Asian politics security studies diplomacy and international relations

Redefining Human Rights in the Struggle for Peace and Development Terrence E. Paupp, 2014-01-20 Human rights in peace and development are accepted throughout the Global South as established normative and beyond debate Only in the powerful elite sectors of the Global North have these rights been resisted and refuted The policies and interests of these global forces are antithetical to advancing human rights ending global poverty and respecting the sovereign integrity of States and governments throughout the Global South The link between poverty war and environmental degradation has become evident over the last 60 years further augmenting international consciousness of these issues as interconnected with the rest of the human rights corpus This book examines the history of this struggle and outlines practical means to implement these rights through a global framework of constitutional protections Within this emerging framework it argues that States will be increasingly obligated to formulate policies and programs to achieve peace and development throughout the global society

Insight Turkey / Fall 2018 - The Struggle Over Central Asia, 2018-12-01 This issue of Insight Turkey comes with a different format and brings to its readers two different topics that require special attention when we consider the latest regional and global affairs The planned topic was Central Asia however the early presidential and parliamentary elections in Turkey led us to cover a second topic in the issue First the current issue focuses on a forgotten but very important region of Central Asia The second section of the journal comprises commentaries and articles on the latest elections in Turkey how to understand them and what could be the future of the presidential system Central Asia is one of the most geostrategic and penetrated regions in the world The founding father of geopolitics the British geographer Sir Halford John Mackinder considers Central Asia as a part of the heartland The control of Central Asia a region stretching from the Caspian Sea in the west to China in the east is a precondition of the world hegemony Throughout the 20th century the Central Asian countries were under the rule of the Soviet Union After the collapse of the Soviet Union the republics of Central Asia re emerged as independent actors of international politics Later they were declared as near abroad by Russia that is they were kept close to Russia through several multilateral platforms Nowadays Central Asian countries namely Kazakhstan Kyrgyzstan Tajikistan Turkmenistan and Uzbekistan face many challenges such as underdevelopment poor governance and corruption mutual mistrust between neighbors fear of radicalism and threats from neighboring global powers The governments of the regional countries must work together in order to be able to overcome these challenges They

need to increase intra regional trade and to de securitize their relations with other countries Central Asian countries are squeezed between two heavyweight powers Russia and China With the revitalization of the historical Silk Road by China many observers began to discuss the increasing importance and role of the Central Asian countries Central Asia will be the main ground for intra East regional and global competition The mostly Turkic and Muslim countries can play the role of game changers at least between the two global actors Turkey a country which shares the same language history and culture with the Central Asian countries is also one of the effective actors in the region After an unprepared and unsuccessful attempt to forge links in the wake of their independence in the 1990s Turkey has improved its relations with the Turkic states and now has multi dimensional relations economic cultural political and security with these countries The transformation of the Turkish political system into a presidential one after the April 16 2017 referendum was finalized with the June 24 2018 elections when Recep Tayyip Erdo an was elected as the first Turkish president in the context of the new presidential system Naturally many questions have risen in terms of the transformation of the new system and its impact on Turkey s foreign policy This issue of Insight Turkey aims to discuss this political transformation Turkey has been governed by a multi party parliamentary system for decades The country has experienced several chaotic periods due to political instabilities mainly as a result of coalition or weak governments Since Turkey could not end the bureaucratic especially military and judiciary tutelage it could not consolidate its democracy under the parliamentary system Therefore many politicians such as Necmettin Erbakan and S leyman Demirel asked for the transformation of the system into a presidential one At a time when the whole world has been experiencing a transformation Turkey has also decided to consolidate its political authority and therefore it has decided to transform its political system into a unified and strong executive power in order to be able to struggle against emerging threats Ultimately as a regional power and global actor Turkey now has a strong political leadership who plays an effective role in international politics In this issue we bring four manuscripts which analyze in detail the June 2018 elections and the new presidential system in Turkey On the verge of the reorganization process in Turkey Zahid Sobac zer K seo lu and Nebi Mi in their article provide a legal and institutional analysis of how the public policy process and the roles and responsibilities of policy actors have changed with the new system Understanding the actual elections of June 24 is also very important In the light of this the detailed election analyses of Ali arko lu and Kerem Y ld r m provide an exemplary source Furthermore H seyin Alptekin s article deals specifically with the patterns of Kurdish votes in 24 eastern Turkish cities and contends that intra Kurdish and intra regional differences have prevailed in the June 24 elections The last piece on the elections is the commentary written by Ali Ya ar Sar bay which addresses the factors that led to the new system in Turkey through historical and sociological processes Six other manuscripts bring a general perspective on the regional and global affairs in Central Asia Experts in this area analyze the Russian Chinese competition in the region the responses of the Central Asian states and Turkey s comeback in Central Asia Morena Skalamera focusing on the rivalry

between global and regional powers in Central Asia i.e Russia China the U S Turkey etc intends to explain the Central Asian governments failure to capitalize on these developments Mariya Omelicheva and Ruoxi Du on the other hand shed light on why Russia has abstained from a possible conflict with China when it comes to the Central Asian energy and transportation networks by arguing that Kazakhstan s multi vector foreign policy has played a crucial role in this regard This issue places a special emphasis on Kazakhstan considering that it is one of the most important regional states In the light of this the articles of Azhar Serikkaliyeva et al and Aidar Kurmashev et al focus on the China Kazakhstan strategic partnership and Kazakhstan s example of fighting terrorism respectively Lastly as the title of this issue suggests Turkey is redirecting its attention to Central Asia as a part of its recent foreign policy strategies In this regards Bayram Balç and Thomas Liles provide a brief analysis of Turkey s relations with Central Asian states in the political economic and cultural areas Furthermore Eref Yalınkılıç focuses especially on Turkey s relationship and cooperation with Uzbekistan which in the new era seems indispensable for the sake of the former s interests and influences in the region Three off topic manuscripts conclude this issue of Insight Turkey As Trump directs the U S towards isolation and continues Obama s policy of retrenchment in the Middle East other actors such as the UK will attempt to fill the void Within this context Gareth Stansfield Doug Stokes and Saul Kelly in their article analyze the UK s return to the region and its implication for the balance of power in the region Vladimir Bobrovnikov brings attention to the making of the intolerant discourse on Islam in Soviet and Imperial Russia and the attempts to integrate applied Oriental studies into the general debates on Orientalism Written by Emrah Kekilli the last commentary focuses on the ongoing Libya crisis and its forthcoming elections Placing the main fault upon UAE s intervention Kekilli contends that the crisis in Libya reflects the regional interests With one more year coming to an end we are pleased to present to our readers another insightful issue which aims to bring attention to the largely ignored region of Central Asia Furthermore the latest transformations in Turkey deserve to be analyzed thoroughly and presented to those readers interested in Turkey s politics With the trust that you will find this issue illuminating and interesting we look forward to meeting you in the next year s issues

Terrorism and Counter-terrorism in China Michael Clarke, 2018 China hitherto barely affected by terrorism now confronts a phenomenon all too familiar to other nations

Come With Me If You Want to Live Michael Harris, 2023-11-02 If our near future sometimes feels like a dystopian sci fi movie that s because it is In *Come With Me If You Want to Live The Future as Foretold in Classic Sci Fi Films* Michael Harris reveals the hidden in plain sight meanings of the greatest science fiction films of the past fifty years the ways in which they predicted the future that we are increasingly living in but how we can still avoid the worst of what they warned us about The 1970s saw the start of a new wave of science fiction that predicted environmental destruction out of control technology and escalating political crises These were not the fantastical imaginings of filmmakers they were based on rising environmental consciousness and solid scientific research The explanation of why we didn t heed these warnings might be the most important story of our time and

now our future Each chapter focuses on a classic sci fi film among them Blade Runner Terminator 2 12 Monkeys Brazil Soylent Green and the Back to the Future series these films are used to consider our likely environmental technological and political future But taking sci fi seriously again could help us to regain our power to create different tomorrows guided by practical utopianism and to imagine new science fictions for a better world If you re wondering what the future holds maybe you ve already seen it

India and the Responsibility to Protect Dr Alan Bloomfield, 2016-01-28 Bloomfield charts India s profoundly ambiguous engagement with the thorny problem of protecting vulnerable persons from atrocities without fatally undermining the sovereign state system a matter which is now substantially shaped by debates about the responsibility to protect R2P norm Books about India s evolving role in world affairs and about R2P have proliferated recently but this is the first to draw these two debates together It examines India s historical responses to humanitarian crises starting with the 1971 Bangladesh Liberation War concentrating on the years 2011 and 2012 when India sat on the UN Security Council Three serious humanitarian crises broke during its tenure in Cote d Ivoire Libya and Syria which collectively sparked a ferocious debate within India The book examines what became largely a battle over what sort of actor modern India is or should be to determine how this contest shaped both India s responses to these humanitarian tragedies and also the wider debates about rising India s international identity The book s findings also have important and largely negative implications for the broader effort to make R2P a recognised and actionable international norm

American Foreign Policy and Political Ambition James Lee Ray, 2013-08-20 In his eagerly awaited second edition of American Foreign Policy and Political Ambition James Ray revisits his deceptively simple premise that the highest priority of leaders is to stay in power Looking at how political ambition and domestic pressures impact foreign policymaking is the key to understanding how and why foreign policy decisions are made The text begins by using this analytic approach to look at the history of foreign policymaking and then examines how various parties inside and outside government influence decision making In a unique third section the book takes a regional approach not only covering trends other books tend to miss but giving students the opportunity to think comprehensively about how issues intersect around the globe from human security and democratization to globalization and pollution Guided by input from adopters and reviewers Ray has thoroughly re organized the book and streamlined some coverage to better consolidate the historical institutional regional and topical chapters and focus the thematic lens of the book Ray has also brought the book fully up to date addressing the latest events in American foreign policy including the wars in Afghanistan and Iraq the killing of Bin Laden the WikiLeaks scandal and its aftermath the impact of social media on foreign policy and world affairs nuclear proliferation developments in U S Russian relations climate change and more
