Green, David Weisburd, Craig Uchida, 2012-12-06 Police Innovation and Control of the Police Problems of Law Order and Community brings together an impressive array of scholars and analysts to examine the impact of the development of crime control strategies on problems of police corruption and abuse The text provides an historical overview of the development of legal control of the

police and examines the challenges that recent innovations such as community or problem oriented policing present to the traditional historical mechanisms for maintaining control of the police. Additionally, a comparative perspective is featured that draws upon the experiences of the Gorbachev era in the Soviet Union as well as on the history of European law enforcement over the last century. This book is instrumental for encouraging discussion and debate of police innovation and its impact on the ability of society to control the police abuse. In light of the Los Angeles riots of the Spring of 1992, scholars, practitioners, and students of crime prevention studies, criminology, and psychology will find this volume timely, topical, and provocative.

The Laws of Kenya Kenya, Herbert Bown, 1926 Treating the Criminal Offender Alexander B. Smith, Louis

Berlin, 2013-11-11. The second edition of *Treating the Criminal Offender* was written in an atmosphere of disillusionment and severe criticism of the traditionalist approach to treatment. As crime rates soared, the voices of the critics rose in volume and intensity. And so this third edition, revised toward the end of the decade of the 1980s, embodies the shift in emphasis from rehabilitating the offender to protecting the community. This shift, in our opinion, does not reject the goal of changing the offender so as to effect his reintegration into society; it uses the strategy of intensive supervision and surveillance only to effect the desired goal. The use of electronics to monitor the offender's whereabouts and the swift application of punitive measures following the awareness of any violation are extrinsic techniques of control. It is our opinion that for the deep, more lasting changes in behavior, some form of casework, counseling, and/or psychotherapeutic intervention is essential. We are the cohorts who believe in the effectiveness of such treatment modalities when and if applied to the right target population at the appropriate time. **A Treatise on the Criminal Law and Criminal Courts of the State of New York** Oliver Lorenzo

Barbour, 1883 *Routledge Revivals: Guards Imprisoned (1989)* Lucien X. Lombardo, 2016-10-04. First published in 1989, *Guards Imprisoned* provides an in-depth look into the work and working life of prison guards as they perceive and experience it. The author, who was a teacher at Auburn Prison, New York, discovered that little was known about the guard's perceptions of his place in the prison community and set out to explore the dynamics of this key correctional occupation from the perspective of those who do it. The raw data was provided by over 160 hours of interviews with guards and is presented in the order of a natural history, from their prerecruitment images of prison to the search for satisfaction as experienced guards. The book also includes a follow-up with the officers who were originally interviewed in 1976, assessing patterns of change and stability in their attitudes and behaviors. The Auburn Correctional Facility, renamed from Auburn Prison in 1970, was the second state prison in New York, the site of the first execution by electric chair in 1890, and the namesake of the famed Auburn System, replicated across the country in which people worked in groups during the day, were housed in solitary confinement at night, and lived in total silence. The facility is celebrating the 200th anniversary of its groundbreaking in 2016.
