Bale, 2017-10-04 This book examines a wide array of phenomena that arguably constitute the most noxious extreme terrifying murderous secretive authoritarian and or anti democratic aspects of national and international politics Scholars should not ignore these dark sides of politics however unpleasant they may be since they influence the world in a multitude of harmful ways The second volume in this two volume collection focuses primarily on assorted religious extremists including apocalyptic millenarian cults Islamists and jihadist terrorist networks as well as CBRN chemical biological radiological and nuclear terrorism and the supposedly new nexus between organized criminal and extremist groups employing terrorist operational techniques A range of global case studies are included most of which focus on the lesser known activities of certain religious extremist milieus This collection should prove to be essential reading for students and researchers interested in understanding seemingly arcane but nonetheless important dimensions of recent historical and contemporary politics **A Catalogue of Valuable New and Second-hand Books** Willis and Sotheran, 1862 **Dress & Vanity Fair** ,1923 The New York School Poets and the Neo-Avant-Garde Mark Silverberg, 2016-02-17 New York City was the site of a remarkable cultural and artistic renaissance during the 1950s and 60s In the first monograph to treat all five major poets of the New York School John Ashbery Barbara Guest Kenneth Koch Frank O Hara and James Schuyler Mark Silverberg examines this rich period of cross fertilization between the arts Silverberg uses the term neo avant garde to describe New York School Poetry Pop Art Conceptual Art Happenings and other movements intended to revive and revise the achievements of the historical avant garde while remaining keenly aware of the new problems facing avant gardists in the age of late capitalism Silverberg highlights the family resemblances among the New York School poets identifying the

aesthetic concerns and ideological assumptions they shared with one another and with artists from the visual and performing arts A unique feature of the book is Silverberg s annotated catalogue of collaborative works by the five poets and other artists To comprehend the coherence of the New York School Silverberg demonstrates one must understand their shared commitment to a reconceptualized idea of the avant garde specific to the United States in the 1950s and 60s when the adversary culture of the Beats was being appropriated and repackaged as popular culture Silverberg s detailed analysis of the strategies the New York School poets used to confront the problem of appropriation tells us much about the politics of taste and gender during the period and suggests new ways of understanding succeeding generations of artists and poets
