The Origins Of The Irish:

The Origins of the Irish J. P. Mallory, 2013-04-01 An essential new history of ancient Ireland and the Irish written as an engrossing detective story About eighty million people today can trace their descent back to the occupants of Ireland But where did the occupants of the island themselves come from and what do we even mean by Irish in the first place This is the first major attempt to deal with the core issues of how the Irish came into being J P Mallory emphasizes that the Irish did not have a single origin but are a product of multiple influences that can only be tracked by employing the disciplines of archaeology genetics geology linguistics and mythology Beginning with the collision that fused the two halves of Ireland together the book traces Ireland's long journey through space and time to become an island The origins of its first farmers and their monumental impact on the island is followed by an exploration of how metallurgists in copper bronze and iron brought Ireland into increasingly wider orbits of European culture Assessments of traditional explanations of Irish origins are combined with the very latest genetic research into the biological origins of the Irish

A Literary History of Rome from the Origins to the Close of the Golden Age John Wight Duff, 1923 **The Sources for the Early History of Ireland: an Introduction and Guide** James Francis Kenney, 1929 British History Traced from Egypt & Palestine

Lawrence Graeme Allan Roberts, 1927 Ireland, Sweden, and the Great European Migration, 1815-1914 Donald Harman Akenson, 2011-08-23 This book is the product of Donald Akenson's decades of research and writing on Irish social history and its relationship to the Irish diaspora it is also the product of a lifetime of trying to figure out where Swedish America actually came from and why These two matters Akenson shows are intimately related Ireland and Sweden each provide a tight case study of a larger phenomenon one that for better or worse shaped the modern world the Great European Diaspora of the true nineteenth century Akenson's book parts company with the great bulk of recent emigration research by employing sharp transnational comparisons and by situating the two case studies in the larger context of the Great European Migration and of what determines the physics of a diaspora no small matter as the concept of diaspora has become central to twenty first century transnational studies He argues against the increasing refusal of mainstream historians to use empirical databases that the history community still has a lot to learn from economic historians and simultaneously that despite the self confidence of their proponents narrow economically based explanations of the Great European Migration leave out many of the most important aspects of the whole complex transaction Akenson believes that culture and economic matters both count and that leaving either one on the margins of explanation yields no valid explanation at all Austerity and Irish Women's Writing and Culture, 1980-2020 Deirdre Flynn, Ciara L. Murphy, 2022-07-18 Austerity and Irish Women's Writing and Culture 1980-2020 focuses on the under represented relationship between austerity and Irish women's writing across the last four decades Taking a wide focus across cultural mediums this collection of essays from leading scholars in Irish studies considers how economic policies impacted on and are represented in Irish women's writing during critical junctures in recent Irish history Through an investigation of cultural production north and south of the border this collection analyses women's writing using a multimedial approach through four distinct lenses austerity feminism and conflict arts and austerity race and austerity and spaces of austerity This collection asks two questions what sort of cultural output does austerity produce And if the effects of austerity are gendered then what are the gender specific responses to financial insecurity both national

and domestic By investigating how austerity is treated in women s writing and culture from 1980 to 2020 this collection provides a much needed analysis of the gendered experience of economic crisis and specifically of Ireland s consistent relationship with cycles of boom and bust Thirteen chapters which focus on fiction drama poetry women s life writing and women s cultural contributions examine these questions This volume takes the reader on a journey across decades and forms as a means of interrogating the growth of the economic divide between the rich and the poor since the 1980s through the voices of Irish women **Current History** ,1929 Encyclopedia of Historians and Historical Writing Kelly

Boyd,2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies

Images of Irishness in Nineteenth-Century Travel Literature Dimitrios Kassis,2018-10-23 Since its annexation to the British Crown Ireland has never ceased in forming the subject of an ardent national debate in Great Britain which resulted in the demonisation of the Celtic race as subaltern and backward In its effort to forge a national identity the British Empire adopted several collective identities on the basis of the racial and cultural findings of the 1850s which gave a new impetus to the systematic view of England as a typically Anglo Saxon culture staunchly opposed to the alleged Celtic backwardness and the rebellious spirit of the Irish In view of the rising anti Irish wave of sentiment in the British imperialist imagination Irish nationalism was manifest through a series of uprisings the majority of which sought to link the country to its ancient Celtic heritage The Celticist movements of Young Ireland and the Irish Revival revealed the need of Irish Nationalists to acquire a new collective identity which proved to be a strenuous task given the complex historical and ethnic background of the Irish This book investigates the extent to which Irish identity is affected by the racist and nationalist discourses of the nineteenth century which emerged to either defend or oppose the image of Ireland as a cultural construct The travelogues explored here include some of the most fundamental representations of Ireland by prominent Irish and British travel writers whose impressions of the island might be linked to the utopian and dystopian dimensions of the country

The Brexit Challenge for Ireland and the United Kingdom Oran Doyle,Aileen McHarg,Jo Murkens,2021-08-26 Since the 1950s European integration has included ever more countries with ever softening borders between them In its apparent reversal of integration and its recreation of borders Brexit intensifies deep seated tensions both institutional and territorial within and between the constitutional orders of the United Kingdom and Ireland In this book leading scholars from the UK

and Ireland assess the pressures exerted by Brexit from legal historical and political perspectives This book explores the territorial pressures within the UK constitution connecting them to the status of Northern Ireland before exploring how analogous territorial pressures might be addressed in a united Ireland The book also critically analyses the Brexit process within the UK drawing on Irish comparative examples to assess unresolved tensions between popular mandate legislative democracy and executive responsibility Through practical application this book explores how constitutions function under the most intense political pressures

The British Problem c.1534-1707 Brendan Bradshaw, John Morrill, 1996-06-27 This pioneering book seeks to transcend the limitations of separate English Irish Scottish and Welsh histories by taking the archipelago made up of the islands of Britain and Ireland as a single unit of study There has been little attempt hitherto to study the history of the Atlantic archipelago as a coherent entity even for the period during which there was a single ruler of both Great Britain and Ireland This book begins with the onset of the intellectual religious political cultural and dynastic developments that were to bring the Scottish house of Stewart to the thrones of England incorporating the ancient principality of Wales Ireland a kingdom created in 1541 as a dependency of the English Crown and to full control of Scotland itself and of its islands This is then a story of the creation of a British state system if not a British state but the book is also a study of how the peoples of the archipelago interacted as a result of internal migration military conquest protestant and Tridentine Catholic evangelism and how they were changed as a result Ten distinguished historians representing the separate peoples of the islands of Britain and Ireland and teaching history in Britain Ireland and the USA offer provocative and challenging new approaches to how and why we need to develop the history of each component of the archipelago in the context of the whole and to make the British Problem central to that study

Ireland and Empire, 1692-1770 Charles Ivar McGrath, 2015-09-30 Historians often view early modern Ireland as a testing ground for subsequent British colonial adventures further afield McGrath argues against this passive view suggesting that Ireland played an enthusiastic role in the establishment and expansion of the first British Empire He focuses on two key areas of empire building finance and defence
