Format and Content of the Package Design Safety Report for the Transport of Radioactive Material IAEA, 2022-06-14 Requirements for the safe transport of radioactive material are established in IAEA Safety Standards Series No SSR 6 Rev 1 Regulations for the Safe Transport of Radioactive Material 2018 Edition Packages intended for the transport of radioactive material have to be designed to meet applicable national and international regulations For package designs that require approval by a competent authority the documentary evidence of compliance with the applicable regulations is commonly known as package design safety report PDSR For package designs that do not require competent authority approval a PDSR would also be an appropriate form of documentary evidence of compliance with the Transport Regulations This Safety Guide provides recommendations on the preparation of a PDSR to demonstrate compliance of a package design for the transport of radioactive material with the Transport Regulations This Safety Guide is intended for use by applicants for approval of package designs when package designs are subject to competent authority approval as well as by package designers and or consignors when package designs do not require competent authority approval Regulators will benefit from the common structure for the competent authority assessment process and designers and consignors will find a consistent approach to justify the compliance of a package design with the regulatory requirements

Managing Packaging Design for Sustainable Development Daniel Hellström, Annika Olsson, 2017-01-17 Packaging design is a powerful vehicle for making our lives friendlier our planet greener and our businesses richer It is an essential link between the producer and the customer where it contributes to the positioning and presentation of a product and on many occasions the use of the product after purchase What is missing is a compass that can guide practitioners in the right direction This is particularly so in the field of packaging where the routes you take may contradict rather than contribute to sustainable development *Managing Packaging Design* for

Sustainable Development A Compass for Strategic Directions emphasizes the need to rethink packaging system design by presenting a strategic packaging design tool a compass The compass encourages you to go off road to develop and innovate and to remake the packaging design solution that previously was best practice Theory and practical applications are balanced by outlining the most crucial tenets of packaging design for sustainability and by illustrating wide range of real life cases that will inspire and challenge the mindsets of those who apply the compass in packaging design related projects This is a must have book for designers engineers logisticians marketers supply chain professionals and other managers who seek guidance on sustainable solutions through packaging design *Domestic Commerce* United States.
