Explaining Law Larry D. Barnett, 2015-08-04. Sociologist-lawyer Larry D. Barnett advances the macrosociological thesis that in nations that are structurally complex and democratically governed, concepts and doctrines of law on society, central social activities, are fashioned by society-level conditions, not by particular or even prominent individuals. Because a substantial body of social science research has found that law in a modern nation does not have a large permanent effect on the frequency of such activities, the book contends that the content of law on the activities is a product, not a determinant, of the society in which the law exists. *Explaining Law* bolsters this contention with several original studies and illustrates types of quantitative evidence that can be used to build a macrosociological theory of law.

The Hermeneutical Spirit Amos Yong, 2017-11-06. In the contemporary biblical studies, climate proposals regarding the theological interpretation of Scripture are contested, particularly but not only because they privilege, encourage, and foster ecclesial or other forms of normative commitments as part and parcel of the hermeneutical horizon through which scriptural texts are read and understood. Within this context, confessional approaches have been emerging, including some

from within the nascent pentecostal theological tradition This volume builds on the author s previous work in theological method to suggest a pentecostal perspective on theological interpretation that is rooted in the conviction that all Christian reading of sacred Scripture is post Pentecost meaning after the Day of Pentecost outpouring of the Spirit on all flesh in anticipation of the coming reign of God In that respect such a pentecostal interpretative perspective is not parochially for those within the modern day movement bearing that name but is arguably apostolic in following after the scriptural imagination of the earliest disciples of Jesus the messiah and therefore has ecumenical and missional purchase across space and time The Hermeneutical Spirit thus provides close readings of various texts across the scriptural canon as a model for Christian theological interpretation of Scripture suitable for the twenty first century global context Current Issues in Knowledge Management Jennex, Murray E.,2008-02-28 This book combines research on the cultural technical organizational and human issues surrounding the creation capture transfer and use of knowledge in today s organizations Topics such as organizational memory knowledge management in enterprises enablers and inhibitors of knowledge sharing and transfer and emerging technologies of knowledge management offering information to practitioners and scholars in a variety of settings Provided by publisher *Decriminalizing Mental Illness* Katherine Warburton,Stephen M.
