The Memory Of A Planet:

12 Planets of the Intergalactic Map: Books 1-3 Derek Mailhiot, 101

BOOK 1 What happens when 12 civilizations from different planets meet for the very first time Will their common origin unite them into a mighty Intergalactic Empire Or will they destroy each other The people of the planet Schyllus in the Canis Major Dwarf Galaxy possess the Intergalactic Map which plots 12 planets in the Local Group of galaxies colonized by the First Ones Schyllus is one of the planets Earth is another There are 10 more Scientists on Schyllus discover that the Maker has created a device in deep space the Gryben Anomaly that allows them to instantaneously travel between the 12 Planets The first planet they travel to is Earth All they know is that Earth was colonized by the First Ones thousands of years ago just like Schyllus was but otherwise they know nothing about it What happens when 196 418 Travelers from Schyllus arrive on an unsuspecting and unprepared Earth The Travelers are peaceful explorers yet their arrival results in billions of human deaths from the chaos that ensues Will their arrival on Earth be the demise of the human race Or will mankind join the Travelers in expeditions to the other planets Thijar Hyperios Kikrit Freytus Acfarr Vaagon Minyos Ozkozania Dagomere and Pluvikerr These planets were all colonized by the First Ones thousands of years ago but have evolved into vastly different civilizations And unbeknownst to the humanoids inhabiting the 12 Planets a malevolent entity known as Torajii has vowed to exterminate all humanoids from the universe

BOOK 2 Taking advantage of the worldwide Blackout the Travelers from the planet Schyllus unite the nations of Earth into a single supranation called Pangaea governed by the World Council Travelers dominate the World Council and have surreptitiously placed Travelers in strategic positions in the government military and society But are the Traveler s intentions for Earth good or evil Simultaneously the world s elite have established themselves in 144 utopian cities scattered throughout the globe declaring their independence from Pangaea in utter defiance of the World Council Civil war breaks out But the 144 are protected by private armies armed with sophisticated weapons including nuclear electromagnetic pulse weapons and anti nanobot defenses Now on the planet Schyllus Christiaan is deeply concerned about the Traveler s duplicitous actions on Earth But before he can intervene he is given a rare Eternity Orb by the Being who sends him to distant planets on a mission to unite the 12 Planets into a mighty Intergalactic Empire On his otherworldly journeys Christiaan encounters the mysterious Philosopher a civilization trapped in a virtual world controlled by a devious A I and a planet controlled by the godlike Machine All the while the malevolent Torajii a sentient virus created when he was blasted with gamma rays and other high energy radiation in the aftermath of a supernova continues to enact his plan to exterminate every humanoid in the universe

BOOK 3 The adventures of Christiaan Daniel and Hannah continue on the planet Hyperios It is the third planet among the 12 Planets the three Tellurians have visited It doesn t go well They endure crisis after crisis When Christiaan mysteriously vanishes while trying to return to Schyllus Daniel goes in search of him leaving Hannah all alone on Hyperios for decades just as things go from bad to apocalyptic Daniel eventually finds his dad in a strange solar

system in the unknown part of the universe called Eternity where phantasmal laws prevail There they encounter a mysterious race of humans called the Vandekirians who hold answers to the origin and true purpose of the 12 Planets Meanwhile Torajii births new enemies more powerful than himself enemies who lust to make the 12 Planets their playthings **My Paperback Book** james davis,2015-08-04 Early short storys when I was homeless and in and out of jail has a teen **The Soul and Secrets of Its Structure** Larisa Seklitova,Ludmila Strelnikova,2011-04-04 Since ancient times people have known about existence of the soul Every present religion on the Earth acknowledges that the man has it and all religions confirm that the soul is immortal and its loss is equal to death People offer prayers about salvation of their souls as the greatest value Many religions accept the reincarnation theory i e incarnating of the soul when the soul leaves human body after death and moves to newly born human body to proceed its development Thus what is the soul and whats the structure Our Heavenly Teachers have decided that it is time to give the humanity of third millennium new knowledge about the soul as people of sixth race who will live on the Earth in this period of time will be able to accept and understand these revealed truths This book is devoted to this topic New knowledge about the soul is shown up with care not to shock by the avalanche of new concepts For the first time they revealed that the soul is not only the eddy of invisible spirit but it has like the human body its own structure The first chapter of the book is about the structure of the soul Creation of Soul Jesus Christ says in the Bible In my Fathers house there are many rooms This means there are many inhabited worlds in the Cosmos Souls for these worlds are created by God himself and his aides special Hierarchical Systems It takes 9 cosmic years to create one soul One cosmic year is approximately equal to 1 billion earthly years because time of God and time on the Earth flies differently God creates the soul and makes it spiritual The only God governs the Great Secret of vivification Without vivification there cannot be life as well When we asked God What is the soul He answered The soul is the integral part of the Absolute Many souls are sort of its interior filling They are its main Units like cells in your body All souls piece out the huge nature of the Absolute and God Structure of Soul The Soul is the complex energetical construction It is a volumetric favose structure matrix where one volume enters another and all are merged Cells of the matrix are completely digits which carry out energy Total volume of the soul is called configuration Types of soul configurations vary greatly The self construction principle is laid in the matrix Every soul while developing builds its configuration basing on energetical volumes which fill up cells of the matrix Qualitative and quantitative composition is different within all matrices That is the reason why there are no two absolutely similar souls The matrix is of great importance for every individual because a personality is not personality without it Individual ceases existing without the matrix as an inspired creation The soul is triune It consists of 3 principles plus minus and managerial When a soul has just been created all these three principles are equal and every part occupies 1/3 of total matrix volume In the course of development the balance between its parts constantly changes although if the managerial part reaches half the volume it maintains this balance This is a program of soul construction Soul Development Development and improvement of

soul in everyday life consist in acquisition of life experience new knowledge evolving feelings and intellect but on energetical plane it is enlargement of own energetical potential The sense of life and any existence in any world is development of soul There are only two ways of soul development for the man plus direction to God and minus one to Devil Ways of virtue creativity development through medicine and additionally way of computation and programming connected with creativity lead to God Ways of evil degradation automatism and programming without creativity principle lead to Devil Development of soul in any world is based on a program Program of development is drawn up per one incarnation in the material body It is saved on one of hum
