Becoming Zimbabwe. A History from the Pre-colonial Period to 2008 Brian Raftopoulos, Alois Mlambo, 2009-09-15 Becoming Zimbabwe is the first comprehensive history of Zimbabwe spanning the years from 850 to 2008 In 1997 the then Secretary General of the Zimbabwe Congress of Trade Unions Morgan Tsvangirai expressed the need for a more open and critical process of writing history in Zimbabwe The history of a nation in the making should not be reduced to a selective heroic tradition but should be a tolerant and continuing process of questioning and re examination Becoming Zimbabwe tracks the idea of national belonging and citizenship and explores the nature of state rule the changing contours of the political economy and the regional and international dimensions of the country s history In their Introduction Brian Raftopoulos and Alois Mlambo enlarge on these themes and Gerald Mazarire s opening chapter sets the pre colonial background Sabelo Ndlovu tracks the history up to WW11 and Alois Mlambo reviews developments in the settler economy and the emergence of nationalism leading to UDI in 1965 The politics and economics of the UDI period and the subsequent war of liberation are covered by Joesph Mtisi Munyaradzi Nyakudya and Teresa Barnes After independence in 1980 Zimbabwe enjoyed a period of buoyancy and hope James Muzondidya s chapter details the transition from buoyancy to crisis and Brian Raftopoulos concludes the book with an analysis of the decade long crisis and the global political agreement which followed

Dialogue with Ndebele and Shona Ethnic Cohesion Gusha, Ishanesu Sextus, 2022-09-21 The tension between the Ndebele and Shona people dates back to the pre colonial era and this has been one of the major threats to Zimbabwe's peace. The book proposes Paul's ethics of reconciliation in the Corinthian correspondence as inspiration for social cohesion between the Ndebele and Shona tribes. The volume deploys Pauline key symbols: Christ the Cross of Christ, Ambassador, New Creation and Baptism as epistemological lenses in promoting identity tags that go beyond ethnicity. For these symbols to be effective, the author proposes setting up of the Truth and Reconciliation Commission (TRC), refraining from using ethnic offensive language, introduction of Ndebele and Shona languages in schools, substituting ethnic provincial names with neutral ones, substituting ethnic registration system of people with a neutral one and the devolution of power. *A History of Zimbabwe* Alois S. Mlambo, 2014-04-07 The first single volume history of Zimbabwe with detailed coverage from pre colonial times to the present. This book examines Zimbabwe's pre colonial, colonial and postcolonial social, economic and political history and relates historical factors and trends to recent developments in the country. Zimbabwe is a country with a rich history dating from the early San hunter-gatherer societies. The arrival of British imperial rule in 1890 impacted the country tremendously as the European rulers exploited Zimbabwe's resources, giving rise to a movement of African nationalism and demands for independence. This culminated in the armed conflict of the 1960s and 1970s and independence in 1980. The 1990s were marked by economic decline and the rise of opposition politics. In 1999, Mugabe embarked on a violent land reform program that plunged the nation's economy into a downward spiral with political violence and human rights violations, making Zimbabwe an international pariah state. This book will be useful to those studying Zimbabwean history and those unfamiliar with the country's past. **Memory and Cultural Landscape at the Khami World Heritage Site, Zimbabwe** Ashton Sinamai, 2018-10-10 This book focuses on a forgotten place: the Khami World Heritage site in Zimbabwe. It examines how professionally ascribed values and conservation priorities affect the cultural landscape when there is a disjuncture between local community and national interests and explores the epistemic violence that often accompanied colonial heritage management and archaeology in southern Africa. The central premise is that the history of the modern Zimbabwe nation in terms of what is officially remembered and celebrated inevitably determines how that past is managed. It is about how places are experienced and remembered through narratives and how the loss of this heritage memory may mark the un-inheriting of place. *Memory and Cultural Landscape at the Khami World Heritage Site, Zimbabwe* is informed by the author's experience of living near and working at Great Zimbabwe and Khami as an archaeologist and uses archives and traditional narratives to build a biography for this lost cultural landscape. Whereas Great Zimbabwe is a resource for the state's contentious narrative of unity and a tool for cultural activism among communities whose cultural rights are denied through the nationalisation and globalisation of heritage at Khami, which has lost its historical gravity, there is only silence. Researchers and students of cultural heritage will find this book a much needed case study on heritage, identity, community and landscape from an African

seventy contributors many of them living and working in Africa it offers a highly accessible contemporary account of the subject for use by scholars and students of not only archaeology but also history anthropology and other disciplines The Invention of God in Indigenous Societies James Cox,2014-09-19 Indigenous societies around the world have been historically disparaged by European explorers colonial officials and Christian missionaries Nowhere was this more evident than in early descriptions of indigenous religions as savage primitive superstitious and fetishistic Liberal intellectuals both indigenous and colonial reacted to this by claiming that before indigenous peoples ever encountered Europeans they all believed in a Supreme Being The Invention of God in Indigenous Societies argues that by alleging that God can be located at the core of pre Christian cultures this claim effectively invents a tradition which only makes sense theologically if God has never left himself without a witness Examining a range of indigenous religions from North America Africa and Australasia the Shona of Zimbabwe the Rainbow Spirit Theology in Australia the Yupit of Alaska and the M ori of New Zealand the book argues that the interests of indigenous societies are best served by carefully describing their religious beliefs and practices using historical and phenomenological methods just as would be done in the study of any world religion **Great Zimbabwe** Shadreck Chirikure,2020-11-29 Conditioned by local ways of knowing and doing Great Zimbabwe develops a new interpretation of the famous World Heritage site of Great Zimbabwe It combines archaeological knowledge including recent material from the author s excavations with native concepts and philosophies Working from a large data set has made it possible for the first time to develop an archaeology of Great Zimbabwe that is informed by finds and observations from the entire site and wider landscape In so doing the book strongly contributes towards decolonising African and world archaeology Written in an accessible manner the book is aimed at undergraduate students graduate students and practicing archaeologists both in Africa and across the globe The book will also make contributions to the broader field such as African Studies African History and World Archaeology through its emphasis on developing synergies between local ways of knowing and the archaeology Malawi Zoë Groves,Jessica Johnson,2025-06-27 This book explores Malawi s recent history in light of longer term historical developments contributing important new insights to debates about migration citizenship chieftaincy language cultural practice anti colonialism and nationalism The book is organised around five key themes Rethinking Kamuzu Banda s Malawi Rural Development and Agricultural Production Power and Politics from pre to post colony Malawi and the Southern African Region and Culture and Cultural Production The focus on a single country facilitates consideration of local particularities as well as identification of similarities in the trajectories and challenges shared with other countries in Africa This book provides a nuanced understanding of Hastings Kamuzu Banda Malawi s first Prime Minister and President 1964 94 and the legacy of his rule Chapters analyse decolonisation in a political and a cultural sense and show how the beginning and end of colonial rule were gradual processes rather than sharp ruptures Individual chapters expand our knowledge of the history of public health development rural livelihoods food production and agricultural policy as well as prompting new
