Reading Lists Based on Columbia University Courses Columbia University. Extension Teaching, 1914 **Digital Literary Redlining** Amy E. Earhart, 2025-06-24 Though canon concerns seem to be a relic of 1990s academia we are once again at a historical moment when there is resistance to teaching texts by writers of color and texts that deal with race ethnicity and gender At the same time algorithmic bias scholars are locating systemic bias encoded into systems from policing software to housing software Bringing these divergent areas together Amy E Earhart examines how technological and institutional infrastructures construct and deconstruct race ethnicity and gender identities Focusing on two central infrastructures the database a commonly used technological infrastructure in the digital humanities and the anthology a scholarly and pedagogical infrastructure Earhart considers how such seemingly naturalized infrastructures impact the representation and modeling of identity The book draws upon the building and use of DALA a collection of almost 100 years of generalist American and African American literature anthologies constructed to investigate questions of identity and representation in literary anthologies and by extension the larger literary canon The resulting examination and its rigorous discussion of how identities are created and recreated within Black literary histories has important implications for contemporary cultural and political debates about canon formation literary scholarship and the bias embedded in technological infrastructures *The Odyssey* Homer, 2002 Translated into dactylic hexameter this edition of the *Odyssey* recaptures the oral formulaic experience as never before **American History Through Literature, 1870-1920** Tom Quirk, Gary Scharnhorst, 2006 This volume organized from addiction to Ghost stories features articles on works ideas genres aesthetics events places societal values and the history of publishing from 1870 to 1920 Why Homer Matters Adam Nicolson, 2014-11-18 In this passionate deeply personal book Adam Nicolson explains why Homer matters to him to you to the world in a text full of twists turns and surprises In a spectacular journey through mythical and modern landscapes Adam Nicholson explores the places forever haunted by their Homeric heroes From Sicily awash with wildflowers shadowed by Italy's largest oil refinery to Ithaca southern Spain and the mountains on the edges of Andalusia and Extremadura to the deserted irradiated steppes of Chernobyl where Homeric warriors still lie under the tumuli unexcavated This is a world of springs and drought seas and cities with not a tourist in sight And all sewn together by the poems themselves and their great metaphors of life and suffering Showing us the real roots of Homeric consciousness the physical environment that fills the gaps between the words of the poems themselves Nicholson's is itself a Homeric journey A wandering meditation on lost worlds our interconnectedness with our ancestors and the surroundings we share This is the original meeting of place and mind our empathy with the past our landscape as our drama Following the acclaimed Gentry which established him as one of the great landscape writers working today Nicholson takes Homer's poems back to their source beneath the distant god inhabited mountains on the Trojan plains above the graves of the heroic dead we find afresh the foundation level of human

Literature ,1900 Contra Instrumentalism Lawrence Venuti,2019-07-01 *Contra Instrumentalism* questions the long accepted notion that translation reproduces or transfers an invariant contained in or caused by the source text This instrumental model of translation has dominated translation theory and commentary for more than two millennia and its influence can be seen today in elite and popular cultures in academic institutions and in publishing in scholarly monographs and in literary journalism in the most rarefied theoretical discourses and in the most commonly used clich s *Contra Instrumentalism* aims to end the dominance of instrumentalism by showing how it grossly oversimplifies translation practice and fosters an illusion of immediate access to source texts Lawrence Venuti asserts that all translation is an interpretive act that necessarily entails ethical responsibilities and political commitments Venuti argues that a hermeneutic model offers a more comprehensive and incisive understanding of translation that enables an appreciation of not only the creative and scholarly aspects of what a translator does but also the crucial role translation plays in the cultural and social institutions that shape human life The English Catalogue of Books [annual] Sampson Low,1925 Vols for 1898 1968 include a directory of publishers **Catalogue of Books in the Mercantile Library, of the City of New York. Mercantile Library Association (NEW YORK),1866 **Fantasy** Brian Attebery,2022 Fantasy has become a dominant mode of storytelling and it mirrors our

experiences and anxieties better than any representation of the merely real This book poses two central questions about fantastic storytelling how can it be meaningful if it doesn't claim to represent things as they are and what kind of change can it make in the world *Catalogue of the Guildhall Library of the City of London* Guildhall Library (London, England), 1889

A Gift of the Spirit Eugene Victor Wolfenstein, 2019-06-30 In *A Gift of the Spirit* Eugene Victor Wolfenstein offers a reading of W E B Du Bois's *The Souls of Black Folk* aimed at demonstrating its organic unity and coherence He takes as his interpretive key the experience of the color line with which Du Bois's narrative begins the incident from his youth in which a white girl refused his offer of a visiting card Wolfenstein contends that this instance of misrecognition makes visible an aesthetic and affective configuration involving insult and injury both racial and personal anger as the immediate response to the humiliating wound and when that anger is suppressed a melancholy retreat from the site of injury As Wolfenstein reconstructs it *Souls* tells the story of Du Bois's twofold approach to waging the battle for recognition proud and disciplined resistance to the impositions and injustices of white supremacy and the development of an intellectual station above the field of battle where it could be surveyed from on high With its serious and respectful approach to this canonical work in African American social theory *A Gift of the Spirit* is a fitting tribute to the enduring relevance of Du Bois's singular achievement
