Butterworth IV,2017-12-05 From 1 New York Times bestselling author W E B Griffin comes a dramatic thriller in the Clandestine Operations series about the Cold War the fledgling Central Intelligence Agency and a new breed of warrior January 1946 Two WACs leave an officers club in Munich and four Soviet NKGB agents kidnap them at knifepoint in the parking lot and shove them in the back of an ambulance That is the agents first mistake and their last One of the WACs a blonde woman improbably named Claudette Colbert works for the new Directorate of Central Intelligence and three of the men end up dead and the fourth wounded The incident however will send shock waves rippling up and down the

line and have major repercussions not only for Claudette but for her boss James Cronley Chief DCI Europe and for everybody involved in their still evolving enterprise For though the Germans may have been defeated Cronley and his company are on the front lines of an entirely different kind of war now The enemy has changed the rules have changed and the stakes have never been higher *Gun Safety and America's Cities* Joaquin Jay Gonzalez III, Roger L. Smith, Clarence R. Geier, 2019-06-25 Essays that explore the growing field of conflict archaeology Within the last twenty years the archaeology of conflict has emerged as a valuable subdiscipline within anthropology contributing greatly to our knowledge and understanding of human conflict on a global scale Although archaeologists have clearly demonstrated their utility in the study of large scale battles and sites of conventional warfare such as camps and forts conflicts involving asymmetric guerilla or irregular warfare are largely missing from the historical record *Partisans Guerillas and Irregulars Historical Archaeology of Asymmetric Warfare* presents recent examples of how historical archaeology can contribute to a better understanding of asymmetric warfare The volume introduces readers to this growing study and to its historic importance Contributors illustrate how the wide range of traditional and new methods and techniques of historiography and archaeology can be applied to expose critical actions sacrifices and accomplishments of competing groups representing opposing philosophies and ways of life which are otherwise lost in time The case studies offered cover significant events in American and world history including the French and Indian War the American Revolution Indian wars in the Southeast and Southwest the Civil War Reconstruction Prohibition and World War II All such examples used here took place at a local or regional level and several were singular events within a much larger and more complex historic movement While retained in local memory or tradition and despite their potential importance they are poorly and incompletely addressed in the historic record Furthermore these conflicts took place between groups of significantly different cultural and military traditions and capabilities most taking on a David vs

Goliath character further shaping the definition of asymmetric warfare
