Douglass,2018-10-02 Narratives are the

concrete manifestation of an author s subjectivity They function as that person s voice and should be treated with the same respect that is granted to all voices In Interpreting New Testament Narratives Eric Douglass develops this ethical perspective so that narratives are treated as communication and the author s voice is regarded as a valued perspective Employing a cross disciplinary approach Douglass shows how readers engage narratives as mental simulations creating a temporary possible world that readers enter and experience To recover communication readers locate the events of this world in the culture of the intended audience and translate this meaning into the modern reader s worldview Using a staged reading design this initial reading is followed by readings of critique **Crossing Class Boundaries** Lenette

Schuijt,2025-07-07 Are you a social climber Chances are high as there are many people who cross class boundaries They embark on a long journey filled with adventures and obstacles confusion and discoveries This brings them into a new world

Early Christian Widows and their Social-economic Situation, Support, and Contribution to the Church Rebekah Yurong Zhao, 2025-10-02 In the first consideration of widows in early Christianity Rebekah Yurong Zhao explores the social economic situation of widows their means of support and their contributions to the church Through literary analysis of three different genres of early Christian texts narrative instruction and apologetic texts Zhao argues that historical conclusions can be drawn especially when set against the cultural backgrounds in both the Roman world and ancient Judaism By exploring the situation for widowed women in these cultures and analysing significant texts from the first two centuries of the church including 1 Timothy the Shepherd of Hermas Ignatius Polycarp Tertullian and the Apologists Zhao seeks to answer three key questions what status did widows hold in early Christian society who precisely comprised their support network and what contributions did they make to the church Ultimately this volume examines how support for widows became an iconic practice in early Christianity whilst also dispelling the stereotype of the widow as merely a passive recipient of care
