What did Sodapop do?

He kept the reporters in stitches. He grabbed one guy's press hat and another's camera and walked around interviewing the nurses and mimicking TV reporters

What did Jerry Wood tell Pony about his brothers?

He told him that if they hadn't been so good-looking, they wouldn't have taken so many pictures

Who was really getting a kick out of all this?

Sodapop. He reminded Pony a colt that has to get his nose into everything

Mothers on the Margin? E. Anne Clements, 2014-05-01
The Gospel of Matthew opens with a patrilineal genealogy of Jesus that intriguingly includes five women Tamar Rahab Ruth she of Uriah and Mary
In a gospel that has a strongly Jewish and male orientated outlook why are women incorporated
In particular why include these four Old Testament women alongside Mary
Rejecting traditional as well as feminist views Anne Clements undertakes a close literary reading of the narratives to discern how each woman is characterized and presented
All are significant scriptural figures on the margins of Israelite society
From this intertextual world established by Matthew Clements explores why Matthew may have named these women in the opening genealogy and what implications their inclusion may have for the ongoing gospel narrative
Mothers on the Margin argues that Matthew's Gospel contains a counter narrative focused on women
The presence of the five women in the genealogy indicates that the birth of the Messiah will bring about a crisis in Israel's identity in terms of ethnicity marginality and gender
The women signal that Matthew's Gospel is concerned with the construal of a new identity for the people of God

Between Politics and Markets Yi-min Lin, 2001-12-17
Between Politics and Markets examines how the decline of central planning in post Mao China was related to the rise of two markets an economic market for the exchange of products and factors and a political market for the diversion to private interests of state assets and authorities
Lin reveals their concurrent development through an account of how

industrial firms competed their way out of the plan through exchange relations with one another and with state agents He argues that the two markets were mutually accommodating that the political market grew also from a decay of the state s self monitoring capacity and that economic actors competition for special favors from state agents constituted a major driving force of economic institutional change **Missing May Lit Link Gr. 4-6** ,
