Courtyard Housing for Health and Happiness Donia

Zhang,2016-03-09 Health and happiness are fundamental to human quality of life The United Nations World Happiness Report 2012 reflects a new worldwide call for governments to include happiness as a criterion to their policies The Healthy Cities or Happy Cities movement has been endorsed by the WHO since 1986 and a Healthy House or Happy Home is a critical constituent of a healthy city or a happy city Nevertheless the concept has not been fully explored Existing literature on the healthy house has often focused on the technical economic environmental or biochemical aspects while current scholarship on the happy home commonly centers on interior decoration Few studies have addressed the importance of social and cultural factors that affect the health and happiness of the occupants Identifying four key themes in Chinese philosophy to promote health and happiness at home this book links architecture with Chinese philosophy social sciences and the humanities and in doing so argues that Architectural Multiculturalism is a vital ideology to guide housing design in North America Using both qualitative and quantitative evidence gathered from ethnic Chinese and non Chinese living in the USA and Canada the study proposes that the Courtyard is a central component to promote social and cultural health and happiness of residents It further details courtyard garden house design strategies that combine a sense of privacy with a feeling of community as represented in courtyard housing The schemes may have universal implications Environmental Science Daniel Chiras,2010 Completely updated the eighth edition of Environmental Science enlightens students on the fundamental causes of the current environmental crisis and offers ideas on how we as a global community can create a sustainable future **Structures and Architecture** Paulo J. Cruz,2013-06-27 Although the disciplines of architecture and structural engineering have both experienced their own historical development their interaction has resulted in many fascinating and delightful structures To take this interaction to a higher level there is a need to stimulate the inventive and creative design of architectural structures and to persua *Natural Remodeling for the Not-so-green House* Carol Venolia,Kelly Lerner,2006 A guide to ecological renovation that explains simple steps people can take to make their homes more ecologically friendly and offers practical suggestions for project planning **Introduction to Environmental Physics** Peter Hughes,N.J. Mason,2001-05-29 The changing climate and its affect on all of us is becoming increasingly apparent ozone depletion hurricanes floods and extreme weather behaviour Introduction to Environmental Physics challenges the way we think about how and why environmental change occurs This authoritative book aims to cover some of the more common and popular topics addressed in physics of the earth physics of the environment and environmental physics courses It provides an essentially non mathematical treatment suitable for a first year undergraduate level course The principle topics covered are the physics of the built environment the physics of human survival energy for living environmental health revealing the planet the sun and the atmosphere the biosphere the global climate and climate change With contributions from well respected experts on the subject this textbook contains a summary references and questions at the end of each chapter This is an ideal textbook for first year undergraduates in a variety of courses particularly physical

geography physics environmental and earth science with worked examples illustrating principles and vignettes from scientists who have made a significant contribution to the field enlightening the student along the way As the authors say in the preface to this book At the outset of the 21st century there are many environmental challenges to be wrestled with and though the environment is changing the Physics is not *The Solar House* Daniel D. Chiras, 2002 While heat from sunlight and ventilation from breezes is free for the taking few modern architects or builders really understand the principles involved Yet natural conditioning Heating and cooling with passive solar techniques is a viable alternative to fossil fuels Acknowledging the good intentions of misguided solar designers in the past the author highlights certain egregious errors and shows how to avoid them The author shows how to select a cost effective energy efficient and environmentally friendly backup heating system how to preserve indoor air quality in an airtight energy efficient home and ways of employing green building materials in a naturally conditioned home *The Natural Building Companion* Jacob Deva Racusin, Ace McArleton, 2012 Natural buildings not only bring satisfaction to their makers and joy to their occupants they also leave the gentlest footprint on the environment In this complete reference to natural building philosophy design and technique Jacob Deva Racusin and Ace McArleton walk builders through planning and construction The Natural Building Companion provides the tools necessary to understand basic principles of building science including structural and thermal engineering and hydrodynamics This guide offers thorough up to date and advanced installation details and performance characteristics of straw bale straw clay woodchip clay and cellulose wall systems as well as earthen and stone wall systems and a variety of framing roofing flooring mechanical system and finishing options This fully illustrated volume informs professionals making the transition from conventional building homeowners embarking on their own construction or green builders who want comprehensive guidance on natural building options The book part of the The Yestermorrow Design Build Library is accompanied by an instructional DVD *The Chelsea Green Reader* Ben Watson, 2014-12-02 Chelsea Green the Vermont based independent publisher has always had a nose for authors and subjects that are way ahead of the cultural curve as is evident in this new anthology celebrating the company's first thirty years in publishing The more than one hundred books represented in this collection reflect the many distinct areas in which we have published from literature and memoirs to progressive politics to highly practical books on green building organic gardening and farming food and health and related subjects all of which reflect our underlying philosophy The politics and practice of sustainable living The Chelsea Green Reader offers a glimpse into our wide ranging list of books and authors and to the important ideas that they express Interesting and worth reading in their own right the individual passages when taken as a whole trace the evolution of a highly successful small publisher something that is almost an oxymoron in these days of corporate buyouts and multinational book groups From the beginning Chelsea Green's books were nationally recognized garnering positive reviews accolades and awards We've published four New York Times bestsellers and our books have set the standard for in depth how to books that

remain relevant years often decades beyond their original publication date Chelsea Green was born from a single seed the beauty of craft Craft in writing and editing in a story well told or a thesis superbly expressed writes cofounder and publisher emeritus Ian Baldwin in the book's foreword Today craft continues to inform all aspects of our work design illustration production sales promotion and beyond It has even informed our business model In 2012 Chelsea Green became an employee owned company With the rise of the Internet new media platforms and a constantly shifting bookselling landscape the future of publishing is anything but predictable But if Chelsea Green's books prove anything it is that despite these challenges there remains a hunger for new and important ideas and authors and for the permanence and craftsmanship of the printed word Today our ongoing mission is stronger than ever as we launch into our next thirty years of publishing excellence
