Nevada Jon Christensen, 2001 Photographer Deon Reynolds brings to life the spectacular scenery in this large format photo essay book Page 2 of cover Microsoft .NET - Architecting Applications for the Enterprise Dino Esposito, Andrea Saltarello, 2014-08-28 A software architect's digest of core practices pragmatically applied Designing effective architecture is your best strategy for managing project complexity and improving your results But the principles and practices of software architecting what the authors call the science of hard decisions have been evolving for cloud mobile and other shifts Now fully revised and updated this book shares the knowledge and real world perspectives that enable you to design for success and deliver more successful solutions In this fully updated Second Edition you will Learn how only a deep understanding of domain can lead to appropriate architecture Examine domain driven design in both theory and implementation Shift your approach to code first model later including multilayer architecture Capture the benefits of prioritizing software maintainability See how readability testability and extensibility lead to code quality Take a user experience UX first approach rather than designing for data Review patterns for organizing business logic Use event sourcing and CQRS together to model complex business domains more effectively Delve inside the persistence layer including patterns and implementation The Next Big Thing Sara Caspian, 2000 Everybody's looking for the Next Big Thing but no one needs it more than Tierney Marshall Cool hunter and trend spotter she's got one week to find the sassiest ad campaign ever Or risk losing her promised promotion not to mention her designer date to her arch rival But when she accidentally falls into the trend spotter's spotlight she discovers that being the next big thing is the last thing she needs And that comfort can be found in the arms of the last man she'd expect **Teachings From Pop** Don Eggspuehler, 2014-05 What we've got here is failure to communicate One of my favorite phrases from the 1967 movie Cool Hand Luke brought home to me the importance of learning life lessons through cross generational story telling Passing down the stories from one generation to the next is a rich tradition getting lost these days in a sea of tweets and texts One can't truly know where one is heading without knowing where one has come from so fasten your seat belts and learn more about struggles of the early settlers in Iowa kid adventures of the 1950s fighting in the Civil War neighborhood battles with BB guns chasing after horse thieves slinging snowballs at trucks Teachings from Pop is a collection of stories glimpses of time from the original settlers in Iowa to childhood in the fifties The

historical characters and circumstances portrayed in this book are based on real people and events Combining the stories of several generations in the same location the reader is transported from log cabins and Civil War days to hare brained adventures in the 1950s Boomers will remember these experiences as some of the best times ever even though many were simply the stupid things kids dream up Hopefully this book will help people of today understand how life was back in the old days for the pioneers through the mind boggling changes that occurred during the next hundred plus years
