Western LNG Project, Final Environmental Impact Statement: Comments and appendices United States. Federal Energy Regulatory Commission. Office of Pipeline and Producer Regulation,1978 *Russia and the Making of Modern Greek Identity, 1821-1844* Lucien J. Frary,2015 Explores how Russian politics and religion were instrumental in the shaping of modern Greece providing a broad understanding of nineteenth century Russian foreign policy and religious enterprise and the relationship between religion nationalism and state building *Reclaiming Byzantium* Pinar Üre,2020-02-20 There is a long held feeling in Russia that Moscow is the true heir to the Christian Byzantine Empire In 1894 Imperial Russia opened one of the world s leading centres for Byzantine archaeology in Istanbul the Russian Archaeological Institute its purpose was to stake the claim that Russia was the correct heir to Tsargrad as Istanbul was referred to in Russian circles This then is the history of that institute and the history of Russia s efforts to reclaim its Middle East events since in the Crimea Syria and Georgia are all to some extent wrapped up in this historical framework Üre looks at the founding of the Russian Archaeological Institute its aims and its place in the digging race which characterised the late Imperial phase of modern history Above all she shows how the practise of history has been used as a political tool a form of soft power *Memory in Fragments* Megan E. O'Neil,2024-07-02 Here in the US we re having difficult discussions about who we should monumentalize the political implications of our statues or what to do with monuments that no longer reflect our ideals In a way this book looks at how the Maya dealt with these and related issues The author explores how the ancient Maya engaged with their history by using reusing altering and burying stone sculptures O Neil shows for example how the ancient Maya repurposed stelae that were damaged by their enemies In some cases they would break the stelae to signify a change in their status and bury them with others so that the buried monuments connected with those still standing in specific sacred sites Infused with agency the sculptures retained ceremonial meaning O Neil explores how those breakages and other different human interactions amidst unstable religious political and historical contexts changed the sculptures lives *Modern Turkey* Eliot Grinnell Mears,1924 **Pan-Islam** Jacob M. Landau,2015-07-24 Few ideas have excited such passions over the years as Pan Islam and few have been the subject of so many contradictory interpretations Based on a shared religious sentiment the politics of Muslim unity and solidarity have had to contend with the impact of both secularism and nationalism Professor Landau s study first published in 1990 as *The Politics of Pan Islam* is the first comprehensive examination of the politics of Pan Islam its ideologies and movements over the last 120 years Starting with the plans and activities of Abd lhamid II and his agents he covers the fortunes of Pan Islam up to and including the marked increase in Pan Islamic sentiment and organization in the 1970s and 1980s The study is based on a scholarly analysis of archival and other sources in many

Crossing Borders Michael David-Fox, 2015-05-19 Crossing Borders deconstructs contemporary theories of Soviet history from the revolution

through the Stalin period and offers new interpretations based on a transnational perspective To Michael David Fox Soviet history was shaped by interactions across its borders By reexamining conceptions of modernity ideology and cultural transformation he challenges the polarizing camps of Soviet exceptionalism and shared modernity and instead strives for a theoretical and empirical middle ground as the basis for a creative and richly textured analysis Discussions of Soviet modernity have tended to see the Soviet state either as an archaic holdover from the Russian past or as merely another form of conventional modernity David Fox instead considers the Soviet Union in its own light as a seismic shift from tsarist society that attracted influential visitors from the pacifist Left to the fascist Right By reassembling Russian legacies as he shows the Soviet system evolved into a complex intelligentsia statist form that introduced an array of novel agendas and practices many embodied in the unique structures of the party state Crossing Borders demonstrates the need for a new interpretation of the Russian Soviet historical trajectory one that strikes a balance between the particular and the universal **The Ancient**
