Advance payment of tax and tax deducted at source

Advance payment of tax and tax deducted at source (TDS) are two different concepts related to income tax.

Advance payment of tax refers to the payment of income tax in advance before the end of the financial year. This is usually done by taxpayers who expect to have a tax liability at the end of the year, based on their income and deductions. The payment of advance tax is mandatory for taxpayers whose tax liability is expected to be more than Rs. 10,000 in a financial year. Failure to pay advance tax can result in interest charges and penalties.

On the other hand, TDS refers to the tax deducted at source by the person making the payment. This is usually done by employers, banks, and other financial institutions when they make payments such as salary, interest, rent, or commission, to name a few. The TDS amount is then deposited with the government on behalf of the recipient. The TDS is a prepayment of the tax liability of the recipient, and it is adjusted against the final tax liability at the time of filing the income tax return.

In summary, while advance payment of tax is a voluntary payment made by the taxpayer, TDS is a mandatory deduction made by the payer while making a payment to the recipient.

Assessment of Income Tax

Assessment of income tax refers to the process of determining the amount of tax liability of an individual or a business entity. It is a process undertaken by the income tax department to ensure that taxpayers are correctly reporting their income, claiming deductions, and paying the correct amount of tax.

The assessment of income tax is done in two ways:

1. **Self-assessment:** This is when the taxpayer himself calculates the amount of tax due on his income and pays the tax on or before the due date. The taxpayer is required to file an income tax return (ITR) to declare his income, deductions claimed, and taxes paid.
2. **Assessment by the Income Tax Department:** The Income Tax Department may also conduct an assessment of the taxpayer's income tax return to ensure that it is complete and accurate. This assessment can be done in two ways:
 - a. **Scrutiny Assessment:** This is when the Income Tax Department examines the taxpayer's ITR in detail and may ask for additional information, documents or clarification on any issues related to the return.

Solution Principles Of Taxation Law:

Simple Solutions to Complex Catastrophes John Braithwaite, 2024-02-26 This open access book sets out simple solutions to managing complex catastrophes. It focusses on four kinds of crises: climate change, crime, war, cascades, epidemics, and financial crises. These catastrophes are conceived as complex and prone to cascade effects. This book is optimistic in explaining that there are identifiable simple institutions that international society can strengthen and some simple principles that can help humankind to control the expanding gamut of complex catastrophes that confront the planet, including simple stable institutions and regulatory bodies. It draws on a wide range of current and past crises and challenges from the Cold War to COVID 19 and from Weapons of Mass Destruction to restorative diplomacy with States like China to provide an urgent and timely path forward. Braithwaite argues that improved peacemaking and step by step progress toward abolition of Weapons of Mass Destruction helps prevent environmental, pandemic, and financial catastrophes. His method across four kinds of crises is first to prioritize simple principles and simple institutions that prevent coupled catastrophes from cascading one to the other. The next step is to pursue requisite variety in responses by diagnosing dialectically when additional interventions will and will not add value for crisis control. Braithwaite argues that minimal sufficiency of deterrence, responsive regulation of risks, and restorative diplomacy offer superior theoretical foundations than realism in international relations theory and in organizational crime control. It speaks to those interested in criminology, public policy, and international relations, political science, sociology, public health, and economics. Optimization of Organization And Legal Solutions Concerning Public Revenues And Expenditures in Public Interest Ewa Lotko, Urszula K. Zawadzka-Pak, Michal Radvan, 2018 *The Impact of Community Law on Tax Treaties: Issues and Solutions* Pasquale Pistone, 2002-03-11 Study on the question of harmonization of direct taxation among European Community Member States: how Member States must comply with EC Law as they apply their tax treaties; how EC law regulates cross border tax issues within the Community and how EC law affects tax treaties between EU Member States and third countries. The book provides expert commentary on 27 leading tax cases from the European Court of Justice and gives the proposal of EC Model Tax Convention which combines existing provisions of international tax law with the principles of Community tax law. **Smart Solutions for a Sustainable Future** Mihail Busu, 2025-03-07 This book presents a selection of the best papers from the 18th International Conference on Business Excellence Smart Solutions for a Sustainable Future ICBE 2024 held in Bucharest, Romania, in March 2024. In today's rapidly evolving landscape characterized by volatility, uncertainty, complexity, and ambiguity (VUCA), the need to reshape business practices is of major importance. The book gathers research findings and perspectives on the new challenges, particularly in the field of digital economy and research systems. It focuses on the realignment of organizations and research systems, offering valuable insights into the context of global crises and providing solutions to the real challenges we are facing today. 101 Financial Solutions: Diagnosis and Remedy, *The Energy Crisis and Proposed Solutions*
