ECKM2015-16th European Conference on Knowledge Management Maurizzio Massaro and Andrea Garlatti, 2015-09-02

These proceedings represent the work of researchers presenting at the 16th European Conference on Knowledge Management ECKM 2015. We are delighted to be hosting ECKM at the University of Udine, Italy, on the 3-4 September 2015. The conference will be opened with a keynote from Dr Madelyn Blair from Pelere Inc, USA, on the topic 'The Role of KM in Building Resilience'. On the afternoon of the first day, Dr Daniela Santarelli from Lundbeck, Italy, will deliver a second keynote speech. The second day will be opened by Dr John Dumay from Macquarie University, Sydney, Australia. ECKM is an established platform for academics concerned with current research and for those from the wider community involved in Knowledge Management to present their findings and ideas to peers from the KM and associated fields. ECKM is also a valuable opportunity for face-to-face interaction with colleagues from similar areas of interests. The conference has a well-established history of helping attendees advance their understanding of how people, organisations, regions and even countries generate and exploit knowledge to achieve a competitive advantage and drive their innovations forward. The range of issues and mix of approaches followed will ensure an interesting two days. 260 abstracts were initially received for this conference. However, the academic rigor of ECKM means that after the double-blind peer review process, there are 102 academic papers: 15 PhD research papers, 1 Masters research paper and 7 Work in Progress papers published in these Conference Proceedings. These papers reflect the continuing interest and diversity in the field of Knowledge Management and they represent truly global research from many different countries including Algeria, Austria, Bosnia and Herzegovina, Brazil, Canada, Chile, Colombia, Cuba, Cyprus, Czech Republic, Estonia, Finland, France, Germany, Hungary, India, Indonesia, Iran, Ireland, Italy, Japan, Jordan, Kenya, Lithuania, Mexico, Nigeria, Norway, Pakistan, Poland, Portugal, Romania, Russia, Slovakia, Slovenia, South Africa, Spain, Sri Lanka, Sultanate of Oman, Sweden, Switzerland, Thailand, The Netherlands, UK, United Arab Emirates, USA and Venezuela.

Academia's Digital Voice: A Conversation on 21st Century Higher Education provides critical information on an area that needs particular attention given the rapid introduction and immersion into digital technologies that took place during the pandemic, including quality assurance and assessment. Sections discuss the rapid changes called into question as student mobility, pedagogical readiness of academics, technological readiness of institutions, student readiness to adopt online learning, the value of higher education, the value of distance learning and the changing role of administration and faculty were thrust upon institutions. The unprecedented speed of international lockdowns caused by the pandemic necessitated HEIs to make rapid changes in both teaching and assessment approaches. The quality of these and sacrosanctity of the academic voice has long been the central tenet of higher education.
