Mason,Francesca de Nicola,Smita Kuriakose,Davide S. Mare,Trang Thu Tran,2021-05-07 After a half century of transformative economic progress that moved hundreds of millions of people out of poverty countries in developing East Asia are facing an array of challenges to their future development Slowed productivity growth increased fragility of the global trading system and rapid changes in technology are all threatening export oriented labor intensive manufacturing the region s engine of growth Significant global challenges such as climate change and the COVID 19 pandemic are exacerbating economic vulnerability These developments raise questions about whether the region s past model of development can continue to deliver rapid growth and poverty reduction Against this background The Innovation Imperative in Developing East Asia aims to deepen understanding of the role of innovation in future development The report examines the state of innovation in the region and analyzes the main constraints that firms and countries face to innovating It assesses current policies and institutions and lays out an agenda for action to spur more innovation led growth A key finding of the report is that countries current innovation policies are not aligned with their capabilities and needs Policies need to strengthen the capacity of firms to innovate and support technological diffusion rather than just invention Policy makers also need to eliminate policy biases against innovation in services a sector that is growing in economic importance Moreover countries need to strengthen key complementary factors for innovation including firms managerial quality workers skills and finance for innovation Countries in developing East Asia would also do well to deepen their tradition of international openness which could foster openness in other parts of the world Doing so would help sustain the flows of ideas trade investment and people that facilitate the creation and diffusion of knowledge for innovation **The Publishers Weekly** ,1964 *Forthcoming Books* Rose Arny,2003-04 **Indian Books in Print** ,2001 **Books in Print** ,1991 *Publishers' Circular and Booksellers' Record of British and Foreign Literature* ,1967 *Subject Guide to Books in Print* ,1993 **LA PARADOJA DE LA INNOVACIÓN: Las capacidades de los países en desarrollo y la promesa incumplida de laconvergencia tecnológica** Xavier Cirera,William F Maloney,2020-11-02 A partir de las teor as de Schumpeter los economistas han argumentado que invertir en tecnolog a e innovaci n se traduce en un gran aumento de la productividad Sin embargo como lo muestra La paradoja de la innovaci n las empresas y los gobiernos de los pa ses en v as de desarrollo invierten muy poco para alcanzar este potencial lo que a su vez causa que disminuya la ayuda internacional Con

base en datos actualizados y su análisis Cirera y Maloney arrojan luces sobre la clave de esta paradoja de la innovación que parte de la carencia de factores complementarios de capital humano y capital físico en particular la capacidad administrativa que se requiere para obtener retornos de la inversión en innovación. Así estos países necesitan repensar sus políticas para alejarse de las iniciativas centradas en la investigación y el desarrollo que es probable que fracasen debido a la falta de socios pares en el sector privado y más bien inclinarse hacia el fortalecimiento de las capacidades de las empresas y alinearse con un concepto más general del sistema nacional de innovación que incorpora un abanico más amplio de fallas sistémicas y de mercado. A lo largo de estas páginas los autores le ofrecen al lector un derrotero para navegar los dilemas de las políticas de innovación a medida que aumenta la necesidad de compensar las fallas adicionales se debilita la capacidad de los gobiernos para formular e implementar el conjunto de políticas. La paradoja de la innovación es el primer título del Proyecto de Productividad del Banco Mundial que tiene como objetivo llevar el pensamiento de vanguardia sobre la medición y los determinantes de la productividad basado en el contexto de los países en desarrollo a los responsables de diseñar
