

Student projects for Murach's Java Programming (5th edition)

The projects in this manual are great examples of the programming skills you'll learn as you progress through *Murach's Java Programming* 5th edition. If you complete these projects, you'll not only have thoroughly experienced different aspects of developing an Java programming program, but you'll also have the skills to create your own applications, including programs that include the features in these chapters or that extend upon them.

In this project book, the first chapter describes the project structure, and the following chapters describe completely finished coding for projects 1 through 20. Chapter 21 describes the steps to follow when creating projects 1 through 20 and the reader should complete chapters 1 through 21, coding project 10.1, 10.2, or 10.3.

The last page of this appendix provides some ideas for additional projects that can be developed for chapters 1 through 20. It presents additional projects for those chapters that provide hints for coding.
