Alternative Capitalisms: Geographies of Emerging Regions Robert Gwynne, Denis Shaw, Thomas Klak, 2014-05-12 This book aims to examine the effects of globalization and economic and political transformations in those parts of the world which are now regularly referred to as emerging regions These are Latin America and the Caribbean East Central Europe and the former Soviet Union and East Asia This book breaks new ground in

three areas First of all it develops a critique of the use of the term emerging regions for geographers and social scientists and relates this to world systems theory Secondly it explores the development trajectories and challenges of countries in this so called emerging world countries that will be crucial to the evolution of the world economy in the twenty first century Thirdly it compares and contrasts the pathways of both economic and political change in the three world regions under focus This is a unique approach in terms of books published in both geography and the social sciences Within the context of the three world regions the book combines historical and contemporary analysis of the evolving world system In these regions we are concerned to understand the historical expansion and extension of capitalism and how its contemporary forms of production exchange and regulation are evolving The authors believe that at the present time these processes have produced alternative capitalisms economic and associated developments which while assuredly capitalist differ in various ways from those typical of the capitalist West or core economies of North America and Western Europe

A compendium on international trade in Lesotho, 2025-09-15 International trade is a topic that is important for all states regardless of their level of development Trade can directly increase foreign exchange earnings and allow consumers to access desired foreign goods and services Indirectly trade potentially increases employment and improves technology via spillover effects It ultimately improves economic growth and enhances living standards Conversely there can be negative effects to trade especially when imports are high Examples are jobs being outsourced increased economic dependence de industrialisation in importing countries as well as exposure to negative external shocks Therefore it is crucial to critically examine the multifaceted ways that international trade manifests in any economy It is on this premise that this compendium interrogates various aspects of international trade in the context of Lesotho Although Lesotho is a small country it is strategically located relative to South Africa which gives it several trade advantages The country is willing to engage in international trade and investment deals and it is a member of several significant trade agreements that facilitate its integration into regional and global markets Examples of these are the African Growth and Opportunity Act AGOA the Southern African Customs Union SACU the Southern African Development Community SADC Free Trade Area and the Tripartite Free Trade Area which combines the Common Market for Eastern and Southern Africa COMESA SADC and the East African Community Understanding the various dimensions of international trade in Lesotho is imperative for investors scholars and international business firms but published international trade literature on Lesotho is very scarce This compendium brings to light the implications of international trade on the history and legal political social geographical and economic realities of Lesotho The book will also have a wide appeal for similar economies beyond the particular geographical context of Lesotho
