Machine Translation Jiajun Chen,Jiajun Zhang,2019-01-08 This book constitutes the refereed proceedings of the 14th China Workshop on Machine Translation CWMT 2018 held in Wuyishan China in October 2018 The 9 papers presented in this volume were carefully reviewed and selected from 17 submissions and focus on all aspects of machine translation including preprocessing neural machine translation models hybrid model evaluation method and post editing Overtested Jessica Zacher-Pandya,2015-04-24 This timely book explores what is often overlooked in policy debates about the education of English language learners how the day to day dynamics of the classroom are affected by high stakes testing and the pressures students and teachers experience and internalize as a result The author presents and analyzes classroom observations student work and test scores as well as interviews with students and teachers A disturbing picture of today s overtended public school classroom emerges from the events and practices described in this book While hard to believe all the depictions presented took place in a real elementary school classroom and reflect the current culture of extreme accountability Overtendednot only describes the flaws in our current accountability system but it also provides real world solutions that can have an immediate and positive effect at the classroom state and national level Chapters address key debates such as how to measure proficiency the validity of various language assessment tools the overuse of assessment and the risks and benefits of teaching language arts to English language learners via mandated structured curricula Jessica Zacher Pandya is an Associate Professor in the Departments of Teacher Education and Liberal Studies at California State University Long Beach This book tells an important tale that cannot be conveyed by numbers and tables It is important information for teachers for those who depend on employ and train teachers and for those who create the policies under which teachers are required to operate From the Foreword by Robert Rueda University of Southern California author of The 3 Dimensions of Improving Student Performance Finding the Right Solutions to the Right Problems How many more dire tales of schooling for assessment must be told before we realize that teaching and testing are not the same and that scores on standardized multiple choice achievement tests are a sorry substitute for an engaging learning environment In this book Jessica Zacher Pandya reaches across ideological and institutional borders to offer reasonable pragmatic solutions for change Linda Valli Jeffrey David Mullan Professor of Teacher Education Professional Development College of Education University of

Maryland Zacher Pandya's invaluable book exposes the injustices and absurdities of our high stakes accountability era. Just as importantly, it limns a more academically robust and culturally relevant instructional vision for English language learners.

Gerald Campano, University of Pennsylvania **The ETS Test Collection Catalog** Educational Testing Service. Test Collection, 1993. The major source of information on the availability of standardized tests. Wilson Library Bulletin. Covers commercially available standardized tests and hard to locate research instruments. **Basque and Romance** Ane Berro, Fernández Beatriz, Jon Ortiz de Urbina, 2019-05-07. This is a collection of articles describing and analyzing several of the most important morphosyntactic features for which the formal comparison between Basque and its surrounding Romance languages is relevant, such as word order, inflection, case, argument structure, and causatives. In the context of a language virtually all of whose speakers are bilingual in either Spanish or French, the theoretically informed in-depth description offered in this volume focuses on the fine grain of linguistic structures from languages typologically quite apart but coexisting and probably interacting in the minds of speakers. It therefore aims at shedding some light on the types of interactions between different systems and on the systems themselves. *Natural Language Processing and Information Systems* Rafael Muñoz, Andrés Montoyo, Elisabeth Métais, 2011-06-16. This book constitutes the refereed proceedings of the 16th International Conference on Applications of Natural Language to Information Systems held in Alicante, Spain, in June 2011. The 11 revised full papers and 11 revised short papers presented together with 23 poster papers, 1 invited talk, and 6 papers of the NLDB 2011 doctoral symposium were carefully reviewed and selected from 74 submissions. The papers address all aspects of Natural Language Processing related areas and present current research on topics such as natural language in conceptual modeling, NL interfaces for data base querying, retrieval, NL based integration of systems, large scale online linguistic resources, applications of computational linguistics in information systems management of textual databases, NL on data warehouses and data mining, NLP applications as well as NL and ubiquitous computing. *A Sociopolitical Agenda for TESOL Teacher Education* Peter De Costa, Özgehan Ustuk, 2023-10-05. Teaching English to Speakers of Other Languages (TESOL) sits at the nexus of constant change, which makes it vitally important for language teachers to engage in continuous development and keep abreast of the sociopolitical milieu in which they are embedded. However, most teacher education activities are often associated with what is perceived as best practices that are expected to be adopted often uncritically for classroom application and practice with the intention of training teachers to become technicians in their respective classrooms. In reality, TESOL practitioners often find themselves in situations that require them to be reflexive practitioners and to negotiate sites of political struggles and social injustice. Given that a socially situated understanding of TESOL teacher education is often overlooked, this volume highlights the sociopolitical dimensions of TESOL teacher education. In Part 1, the authors introduce the theoretical underpinnings of the sociopolitical agenda proposed by this volume. Building on these theories, Part 2 realizes the proposed agenda by situating it within actual TESOL teacher education contexts that are

characterized by power imbalances and neoliberally inflected educational injustices *Applied Language Learning*, 2000
