

WHAT IS POSITIVE REINFORCEMENT?

Positive reinforcement can be one of the most effective ways to change behavior and encourage students to behave appropriately.

What is positive reinforcement?

Positive reinforcement is when you reward students, or your child for behaving appropriately. This can be done in many ways. It is so important to highlight and reward when students are doing the right thing.

What is a reinforcement assessment?

A reinforcement assessment is used to determine what a student is motivated by. It is so important that the student is the one that picks their preferred reinforcer to ensure it's motivating and individualized.

Reinforcement and bribery are two totally different things. Reinforcement is rewarding them for exhibiting the behavior you want to see. Bribery is rewarding the behavior you do not want to see. These reinforcement assessments get the students input on what they enjoy and will clearly give ideas to the individual student's reinforcers.
