0321173856B10162003 *Tax Court Practice* Loyal E. Keir,1960 Writing and Psychology Douglas Vipond,1993-09-21

Although psychology is steeped in writing as a discipline it has developed little explicit understanding of writing This is the first book to examine writing and the teaching of writing in psychology from the standpoint of composition studies the scholarly field that specializes in the study and teaching of writing The book s purpose is to develop a different richer more explicit understanding of writing than psychology presently has Three major aspects of writing are discussed audience genre and style After examining these the author draws implications for the teaching of writing in psychology The work does not aim to tell psychologists how to write better rather it suggests how they might think differently about writing The Heart of Librarianship Michael Stephens,2016-05-16

Adaptation to change that s based on thoughtful planning and grounded in the mission of libraries it s a model that respected LIS thinker and educator Michael Stephens terms hyperlinked librarianship And the result for librarians in leadership positions as well as those working on the front lines is flexible librarianship that s able to stay closely aligned with the needs and wants of library users In this collection of essays from his Office Hours columns in Library Journal Stephens explores the issues and emerging trends that are transforming the profession Among the topics he discusses are the importance of accessible welcoming and responsive library environments that invite open and equitable participation and which factors are preventing many libraries from ramping up community engagement and user focused services challenges developments and emerging opportunities in the field including new ways to reach users and harness curiosity considerations for prospective librarians from knowing what you want out of the profession to learning how

to aim for it why LIS curriculum and teaching styles need to evolve mentoring and collaboration and the concept of the library as classroom a participatory space to experiment with new professional roles new technologies and new ways of interacting with patrons Bringing together ideas for practice supporting evidence from recent research and insights into what lies ahead this book will inform and inspire librarians of all types Bookman's Manual Bessie Graham, Hester R.
