The Oxford Handbook of Behavioral Emergencies and Crises Phillip M. Kleespies, 2016-08-22 The Oxford Handbook of Behavioral Emergencies and Crises includes the most up to date and valuable research on the evaluation and management of the most challenging patients or clients faced by mental health providers individuals who are at high risk of suicide of other directed violence or of becoming the victims of interpersonal violence These are cases in which the outcome can be serious injury or

death and there can be negative consequences not only for the patient but also for the patient's family and friends for the assessing or treating clinician and for the patient's clinic or medical center. Virtually all mental health clinicians with an active caseload will see individuals with such issues. This Handbook is comprised of chapters by leading clinicians, researchers, and scholars in this area of practice. It presents a framework for learning the skills needed for assessing and working competently with such high-risk individuals. Chapters draw a distinction between behavioral emergencies and crises and between emergency intervention and crisis intervention. The book examines the interrelated aspects of the major behavioral emergencies that is, for example, the degree to which interpersonal victimization may lead an individual on a pathway to later suicidal or violent behavior or the degree to which suicidal individuals and violent individuals may share certain cognitive characteristics. This resource is not simply a knowledge base for behavioral emergencies; it also presents a method for reducing stress and acquiring skills in working with high-risk people.

Consolidated guidelines on person-centred HIV strategic information World Health Organization, 2022-07-29. These consolidated guidelines are aimed at supporting the generation of responsive person-centred data from routine national health management information systems across the HIV cascade from prevention, testing, and treatment to longer-term health care. They build upon the 2017 Consolidated guidelines on person-centred HIV patient monitoring and case surveillance, which describe information that should be collected in primary HIV patient monitoring tools, and the 2020 Consolidated HIV strategic information guidelines, which cover aggregate indicators for managing and monitoring programmes. The purpose of this guideline consolidation is to provide the recommended data elements, indicators, and guidance on data systems and their use across the spectrum of health sector HIV services in one place. This document focuses on strengthening the analysis and use of routine data at each stage of the cascade and emphasizes addressing person-centred HIV prevention, testing, and treatment, integration of HIV-related infections, the use of routine surveillance data to measure impact, and the development and use of digital health data systems and their governance. It also identifies the gaps.

Executive Orders Organism for Poetic Research,2025-06-09 After the election of Donald Trump in 2016 a group of poets artists and activists conceived of a project wherein they could respond to the sudden and seemingly relentless barrage of Trump s dystopian executive orders with a series of their own orders The project titled Executive Orders was envisioned as a collaborative freeform emergency prose poem that would generate real time responses to current events and the emerging American political landscape The result was a poetic catalog of the people s executive orders orders that are at turns serious absurd satirical philosophical critical utopian and so on Executive Orders began as one community s effort to cope with and respond to the tidal wave of reactionary policies enacted or proclaimed during the years of Trump s first administration As an index of historical happenings that charts events in rough chronological order including the Muslim country travel ban Black Lives Matter protests the Brett Kavanaugh hearings the youth climate march the January 6th riot at the US Capitol and many other events it stands as a documentary record of this historical period from the perspective of artists writers leftists progressives and other contributors many of them anonymous Executive Orders is also an experiment in crowdsourced collaborative making that tells a story about the ways we can and can t come together to form a collective that could have a voice in political deliberations *China 2035: The End of Capitalism As We Know It* Simón Levy, Ma Wukong,2025-09-11 In

Resilience, Conflict-Related Sexual Violence and Transitional Justice Janine Natalya Clark, 2022-10-18 This interdisciplinary book constitutes the first major and comparative study of resilience focused on victims survivors of conflict related sexual violence CRSV Locating resilience in the relationships and interactions between individuals and their social ecologies including family community non governmental organisations and the natural environment the book develops its own conceptual framework based on the idea of connectivity It applies the framework to its analysis of rich empirical data from Bosnia Herzegovina Colombia and Uganda and it tells a set of stories about resilience through the contextual dynamic and storied connectivities between individuals and their social ecologies Ultimately it utilises the three elements of the framework namely broken and ruptured connectivities supportive and sustaining connectivities and new connectivities to argue the case for developing the field of transitional justice in new social ecological directions and to explore what this might conceptually and practically entail The book will particularly appeal to anyone with an interest in or curiosity about resilience and to scholars researchers and policy makers working on CRSV and or transitional justice The fact that resilience has received surprisingly little attention within existing literature on either CRSV or transitional justice accentuates the significance of this research and the originality of its conceptual and empirical contributions The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
