

Troubleshooting/Operating Tips

- Alarms - Follow all prompts on screen to clear alarms. Silence will be the right soft key. Press SILENCE soft key or any key to silence the alarm for 2 minutes.
- Start with a fresh section of tubing loaded in the pump, make sure there is enough tubing for patient movement.
- Correct loading is confirmed by drops falling in drip chamber after pressing RUN. Confirm flow from IV container, to drip chamber, to patient.
- Always press OK to confirm entries and changes.
- Keep the power cord plugged in whenever the pump is not in use.

Soft keys

- Options - Allows operator adjustment of alarm and display settings.
- Titrate - Press the TITRATE soft key to change the flow rate and VTBI (volume to be infused) without stopping the pump.
- Review - Displays infusion information.
- Review/Program - Return to primary setup screen.
- Hold - Infusion is in stand-by (No alarm) until any key is pressed.

Delivering Quality Healthcare for People With Disability Suzanne C. Smeltzer, 2021-01-18 Disability is a universal aspect of the human experience It will affect all of us either directly or indirectly at some point in our lives Healthcare professionals frequently provide care for and communicate with people who have disability Many care providers have acknowledged that additional education would help them deliver optimal evidence based care The educational gap has broad implications and repercussions for the care of this population Delivering Quality Healthcare for People With Disability provides a road map for nurses nursing students and other healthcare professionals to deliver quality healthcare for

individuals with disability From social determinants of health to disability models to an understanding of different types of disability author Suzanne Smeltzer helps nurses take the lead in redefining education and addressing the needs of people with disability *Epiphanized* Bob Sproull, Bruce Nelson, 2017-07-27 Updating the tools principles and methods presented in the bestselling first edition this updated edition explains how to implement the authors proven improvement methodology that unifies the Theory of Constraints with Lean and Six Sigma **Proceedings**, 2004 *A Guide to Empirical Orthogonal Functions for Climate Data Analysis* Antonio Navarra, Valeria Simoncini, 2010-04-05 Climatology and meteorology have basically been a descriptive science until it became possible to use numerical models but it is crucial to the success of the strategy that the model must be a good representation of the real climate system of the Earth Models are required to reproduce not only the mean properties of climate but also its variability and the strong spatial relations between climate variability in geographically diverse regions Quantitative techniques were developed to explore the climate variability and its relations between different geographical locations Methods were borrowed from descriptive statistics where they were developed to analyze variance of related observations variable pairs or to identify unknown relations between variables *A Guide to Empirical Orthogonal Functions for Climate Data Analysis* uses a different approach trying to introduce the reader to a practical application of the methods including data sets from climate simulations and MATLAB codes for the algorithms All pictures and examples used in the book may be reproduced by using the data sets and the routines available in the book Though the main thrust of the book is for climatological examples the treatment is sufficiently general that the discussion is also useful for students and practitioners in other fields Supplementary datasets are available via <http://extra.springer.com>
