McKee, R. Rosen, 2014-02-27 Teaching and Learning Signed Languages examines current practices contexts and the research nexus in the teaching and learning of signed languages offering a contemporary international survey of innovations in this field Lessons from Restructuring Experiences Nancy E. Hoffman, W. Michael Reed, Gwen Socol Rosenbluth, 1997-06-30 Lessons from Restructuring Experiences describes the process of collaborative educational reform in the context of the professional development school model First person stories and literature reviews show how reformed schools and universities look and assess the impact of such reform on students teachers and colleges of education Intended for readers interested in establishing or assessing collaborative reform efforts the book is organized in three units The first provides an overview that will enhance readers understanding of professional development schools and school restructuring The authors review and highlight important concepts and processes in collaborative restructuring The second unit brings the concepts and processes of collaborative change to life by sharing the stories of teachers and administrators in elementary and secondary professional development schools The third unit addresses the complex issue of assessing the outcomes of restructuring in both schools and the university *The SAGE Deaf Studies Encyclopedia* Genie Gertz, Patrick Boudreault, 2016-01-05 The time has come for a new in depth encyclopedic collection of articles defining the current state of Deaf Studies at an international level and using the critical and intersectional lens encompassing the field The emergence of Deaf Studies programs at colleges and universities and the broadened knowledge of social sciences including but not limited to Deaf History Deaf Culture Signed Languages Deaf Bilingual Education Deaf Art and more have served to expand the activities of research teaching analysis and curriculum development The field has experienced a major shift due to increasing awareness of Deaf Studies research since the mid 1960s The field has been further influenced by the Deaf community's movement resistance activism and politics worldwide as well as the impact of technological advances such as in communications with cell phones computers and other devices A major goal of this new encyclopedia is to shift focus away from the Medical Pathological Model that would view Deaf individuals as needing to be fixed in order to correct hearing and speaking deficiencies for the sole purpose of assimilating into mainstream society By contrast The Deaf Studies Encyclopedia seeks to carve out a new and critical perspective on Deaf Studies with the focus that the Deaf are not a people
