Kaplowitt, 2020-05-01 Every handbook of medieval German literature has stressed the importance of love's ennobling power as a motif in the Minnesang yet prior to this volume no study had attempted to assess its significance on the basis of its actual occurrence In this volume Stephen Kaplowitt scrutinizes the entire lyric production of Minnesinger from Der von Krenberg to Walther von der Vogelweide identifying and analyzing every example of the motif He concludes that although the motif is widespread its significance has been considerably exaggerated [The Reception of Alfred Tennyson in Europe](#) Leonee Ormond, 2016-11-17 Alfred Lord Tennyson 1809-1892 has often been considered a particularly British writer in part as his official post as Poet Laureate inevitably committed him to a certain amount of patriotic writing This volume focuses on his impact on the continent presenting a major scholarly analysis of Tennyson's wider reception in different areas of Europe It considers reader and critical responses and explores the effect of his poetry upon his contemporaries and later writers as well as his influence upon illustrators painters and musicians The leading international contributors raise questions of translation and publication and of the choices made for this purpose along with the way in which his ideas and style influenced European writing and culture Tennyson's reputation in Anglophone countries is now assured following a decline in the years after his death This volume enables us to chart the changes in Tennyson's European reputation during the later 19th 20th and 21st centuries *Medieval Woman's Song* Anne L. Klinck, Ann Marie Rasmussen, 2015-08-06 The number of surviving medieval secular poems attributed to named female authors is small some of the best known being those of the trobairitz the female troubadours of southern France However there is a large body of poetry that constructs a particular textual femininity through the use of the female voice Some of these poems are by men and a few by women including the trobairitz many are anonymous and often the gender of the poet is unresolvable A woman's song in this sense can be defined as a female voice poem on the subject of love typically

characterized by simple language sexual candor and apparent artlessness The chapters in *Medieval Woman's Song* bring together scholars in a range of disciplines to examine how both men and women contributed to this art form Without eschewing consideration of authorship the collection deliberately overturns the long standing scholarly practice of treating as separate and distinct entities female voice lyrics composed by men and those composed by women What is at stake here is less the voice of women themselves than its cultural and generic construction **Magill's Medical Guide** Anne

Howard Bloch,Alison Calhoun,Jacqueline Cerquiglini-Toulet,Joachim Küpper,Jeanette Patterson,2014-04-30 In the early 1990s Stephen Nichols introduced the term new medievalism to describe an alternative to the traditional philological approach to the study of the romantic texts in the medieval period While the old approach focused

on formal aspects of language this new approach was historicist and moved beyond a narrow focus on language to examine the broader social and cultural contexts in which literary works were composed and disseminated Within the field this transformation of medieval studies was as important as the genetic revolution to the study of biology and has had an enormous influence on the study of medieval literature Rethinking the New Medievalism offers both a historical account of the movement and its achievements while indicating in Nichols s innovative spirit still newer directions for medieval studies The essays deal with questions of authorship theology and material philology and are written by members of a wide philological and critical circle that Nichols nourished for forty years Publisher s Web site
