and informative encyclopedia examines American regional foods using cuisine as an engaging lens through which readers can deepen their study of American geography in addition to their understanding of America's collective cultures. Many of the foods we eat every day are unique to the regions of the United States in which we live. New Englanders enjoy coffee milk and whoopie pies while Mid Westerners indulge in deep dish pizza and Cincinnati chili. Some dishes popular in one region may even be unheard of in another region. This fascinating encyclopedia examines over 100 foods that are unique to the United States as well as dishes found only in specific American regions and individual states. Written by an established food scholar, *We Eat What A Cultural Encyclopedia of Bizarre and Strange Foods in the United States* covers unusual regional foods and dishes such as hoppin' Johns, hush puppies, shoofly pie, and turducken. Readers will get the inside scoop on each food's origins and history, details on how each food is prepared and eaten, and insights into why and how each food is celebrated in American culture. In addition, readers can follow the recipes in the book's recipe appendix to test out some of the dishes for themselves. Appropriate for lay readers as well as high school students and undergraduates, this work is engagingly written and can be used to learn more about United States geography.

**The Man Who Ate Everything** Jeffrey Steingarten, 2011-06-08. Funny, outrageous, passionate, and unrelenting. Vogue's food writer Jeffrey Steingarten will stop at nothing as he makes clear in these forty delectable pieces. Whether he is in search of a foolproof formula for sourdough bread made from wild yeast, of course, or the most sublime French fries, the secret cooking them in horse fat, or the perfect piecrust. Fannie Farmer that is Marion Cunningham comes to the rescue, he will go to any length to find the answer. At the drop of an apron, he hops a plane to Japan to taste Wagyu, the hand-massaged beef, or to Palermo to scale Mount Etna to uncover the origins of ice cream. The love of choucroute takes him to Alsace, the scent of truffles to the Piedmont, the sizzle of ribs on the grill to Memphis to judge a barbecue contest, and both the unassuming and the haute cuisines of Paris demand his frequent assessment. Inevitably, these pleasurable pursuits take their toll. So we endure with him a week at a fat farm and commiserate over low-fat products and dreary diet cookbooks to bring down the scales. But salvation is at hand when the French Paradox, how can they eat so richly and live so long, is unearthed, and a miraculous new fat substitute, Olestra, is unveiled, allowing a plump gourmand to have his fill of fat without getting fatter. Here is the man who ate everything and lived to tell about it. And
