**Introduction to French Literature** Brian Nelson, 2015-06-05 In this highly accessible introduction Brian Nelson provides an overview of French literature its themes and forms traditions and transformations from the Middle Ages to the present Major writers including Francophone authors writing from areas other than France are discussed chronologically in the

context of their times to provide a sense of the development of the French literary tradition and the strengths of some of the most influential writers within it Nelson offers close readings of exemplary passages from key works presented in English translation and with the original French The exploration of the work of important writers including Villon Racine Moli re Voltaire Balzac Flaubert Zola Proust Sartre and Beckett highlights the richness and diversity of French literature **Short Story Index** ,2004 The Time of Our Lives David Couzens Hoy,2012-01-13 A study of the emergence in post Kantian continental philosophy of a focus on the lived experience of temporality The project of all philosophy may be to gain reconciliation with time even if not every philosopher has dealt with time expressly A confrontation with the passing of time and with human finitude runs through the history of philosophy as an ultimate concern In this genealogy of the concept of temporality David Hoy examines the emergence in a post Kantian continental philosophy of a focus on the lived experience of the time of our lives rather than on the time of the universe The purpose is to see how phenomenological and poststructuralist philosophers have tried to locate the source of temporality how they have analyzed time s passing and how they have depicted our relation to time once it has been in a Proustian sense regained Hoy engages with competing theoretical tactics for reconciling us to our fleeting temporality drawing on work by Kant Heidegger Hegel Husserl Merleau Ponty Nietzsche Gadamer Sartre Bourdieu Foucault Bergson Deleuze i ek and Derrida Hoy considers four existential strategies for coping with the apparent flow of temporality including Proust s passive and Walter Benjamin s active reconciliation through memory i ek s critique of poststructuralist politics Foucault s confrontation with the temporality of power and Deleuze s account of Aion and Chronos He concludes by exploring whether a dual temporalization could be what constitutes the singular time of our lives *A Russian Doll and Other Stories* Adolfo Bioy Casares,1992 This collection of traditional and experimental stories by Argentinian novelist Bioy Casares The Adventures of a Photographer in La Plata offers sophisticated seamless prose as well as magical realism and biting political satire Publishers Weekly **One Arm and Other Stories** Tennessee Williams,1967 Here are the eleven remarkable stories of Tennessee Williams s first volume of short fiction originally published in 1948 and reissued as a paperback in response to an increasingly insistent public demand It was this book which established Williams as a short story writer of the same stature and interest he had shown as a dramatist Each story has qualities that make it memorable In One Arm we live through his last hours and memories with a rough trade ex prizefighter who is awaiting execution for murder The Field of Blue Children explores some of the strange ways of the human heart in love Portrait of a Girl in Glass is a luminous and nostalgic recollection of characters who figure in The Glass Menagerie while Desire and the Black Masseuse is an excursion into the logic of the macabre The Yellow Bird well known through the author s recorded reading of it which tells of a minister s daughter who found a particularly violent but satisfactory way of expiating a load of inherited puritan guilt may well become part of American mythology **The Radicalism of Romantic Love** Renata Grossi,David West,2017-03-31 Undoubtedly Romantic love has come to saturate our

culture and is often considered to be a or even the major existential goal of our lives capable of providing us with both our sense of worth and way of being in the world The Radicalism of Romantic Love interrogates the purported radicalism of Romantic love from philosophical cultural and psychoanalytic perspectives exploring whether it is a subversive force capable of breaking down entrenched social political and cultural norms and structures or whether in spite of its role in the fight against certain barriers it is in fact a highly conservative impulse Exploring both the grounds for the central place of Romantic love in contemporary lives and the meaning extent and nature of its supposed radicalism this volume considers love from a variety of theoretical perspectives with attention to matters of gender sexuality class and ethnicity With authors examining a range of questions including the role of love in the same sex marriage debate polyamory and the notion of love as a political force The Radicalism of Romantic Love illuminates a fundamental but perplexing aspect of our contemporary lives and will appeal to scholars across the social sciences and humanities with interests in the emotions and love as a social and political phenomenon
