East Asian Regionalism Christopher M. Dent, 2016-06-02 East Asia is one of the world's most dynamic and diverse regions and is also becoming an increasingly coherent region through the interplay of various integrative economic, political and socio-cultural processes. Fully updated and revised throughout, this new edition explores the various ways in which East Asian regionalism continues to deepen. The second edition has been expanded to incorporate coverage of significant issues that have emerged in recent years, including: Growing tensions in the region over maritime territory and historical issues; Competing regional free trade agreement negotiations; The impact of the global financial crisis on financial co-operation and engagement with global governance; Obama's pivot to Asia and developments in US relations with East Asia; The influence of new technology and social media on micro-level regional relations; The growing importance of new diplomacy issues such as energy security, climate change, food security and international migration. Key pedagogical features include end-of-chapter study questions, case studies that discuss topical issues with study questions, also provided useful tables and figures which illustrate key regional trends in East Asia. Extensive summary conclusions covering the chapter's main findings from different international political economy perspectives. *East Asian Regionalism* is an essential text for courses on East Asian regionalism, Asian politics and Asian economics. *Trade Enhancement* United States. The book examines how inward automotive investment, especially from Japan, has been affected by policies and how such investment has promoted industrial development in the late industrialising economies within ASEAN Association of Southeast Asian Nations. It provides insights into the automotive industry of Southeast Asia in terms of production volumes, sales volumes, market structure and trade. Through country case studies, the book is a useful reference and illustrates how industrial policies in Southeast Asia have affected the spread of automotive development in the region. It will appeal to policy makers and researchers interested in the automobile industry, industrial policies in the industry and the spread of development from foreign investors to local firms. *Kenya Gazette*, 2000-04-07 The Kenya Gazette is an official publication of the government of the Republic of Kenya.
