Plug-in Vehicles, Plugged in Policy? Great Britain: Parliament: House of Commons: Transport Committee,2012-09-20 Consumer demand for plug in vehicles remains very low and the Government grant to encourage demand may not be proving effective The Government must do more to show that its plug in vehicle strategy is a good use of public money Carbon emissions from transport must be reduced if the UK is to meet its climate change targets but public money must be targeted on effective policies So far Department for Transport expenditure on plug in cars some 11 million has benefited just a handful of motorists There is a risk that the Government is basically subsidising second cars for affluent households It is also unclear whether the provision of public charging infrastructure encourages demand for plug in cars Indeed the Government does not even have a register of all the chargepoints installed at public expense Ukraine Investment and Business Guide Volume 1 Strategic and Practical Information Inc Ibp,2015-06-22 Ukraine Investment and Business Guide Volume 1 Strategic and Practical Information *Springer Handbook of Odor* Andrea Büttner,2017-02-28 The Springer Handbook of Odor is the definitive guide to all aspects related to the study of smell and their impact on human life For the first time this handbook aligns the senso chemo analytical characterization of everyday smells encountered by mankind with the elucidation of perceptual hedonic behavioral and physiological responses of humans to such odors From birth onwards we learn to interact with our environment using our sense of smell Moreover evolutionary processes have engendered a multi faceted communication that is supported even dominated by olfaction This compilation examines the responses of humans to odors at different stages of life thereby building a foundation for a widely overseen area of research with broader ramifications for human life The expert international authors and editor align aspects concepts methodologies and perspectives from a broad range of different disciplines related to the science of smell These include chemistry physiology psychology material sciences technology but also disciplines related to linguistics culture art and design This handbook edited by an internationally renowned aroma scientist with the support of an outstanding team of over 60 authors is an authoritative reference for researchers in the field of odors both in academia and in industry and is also a useful reference for newcomers to the area
