Marine Battle Skills Training Handbook: SSGT-GYSGT, individual combat basic tasks ,1995 *Marine Battle Skills Training Handbook* ,1995 **Manuals Combined: WARRIOR TRAINING CENTER Air Assault School Handbook, 101st Airborne Division (Air Assault) The Sabalauski Air Assault School Handbook & 101st Airborne Division (Air Assault) Gold Book** , Air Assault is a combat insertion unit using helicopters to transport and insert soldiers into battle provide medical evacuation provide close air support provide resupply operations It is usually a company or battalion sized element The term Air Assault derives from two types of operations known as Air Mobility and Vertical Envelopment Air Mobility Operations were developed by the German Army during WWII in the 1930 s The US Army soon adopted this method of offensive operations in 1941 using wooden gliders The glider was assisted into the air by being towed by a larger aircraft and then released The pilot had to navigate the large glider loaded with a team of infantry soldiers to the landing zone behind enemy lines at night and attempt to land safely Once the pilot landed the glider he would join the mission as another infantry soldier with the team that he flew in Although the gliders and techniques used were advanced for that time period they did pose some disadvantages Once the aircraft was landed safely that team of soldiers were cut off from allied troops Pilots had to be cross trained with infantry tactics so he could operate as both roles The air mobility glider was abandoned after WWII after the invention of the helicopter

The Complex Nick Turse,2008-03-18 A stunning breakdown of the modern military industrial complex an omnipresent hidden in plain sight system of systems that penetrates all our lives From iPods to Starbucks to Oakley sunglasses national

security expert Nick Turse explores the Pentagon's little noticed contacts and contracts with the products and companies that now form the fabric of America. He investigates the remarkable range of military incursions into the civilian world: the Pentagon's collaborations with Hollywood filmmakers; its outlandish schemes to weaponize the wild kingdom; its joint ventures with Marvel Comics and NASCAR; and he spotlights the disturbing way in which the military desperate for fresh recruits has tapped into the online world by friending young people on social networks. A striking vision of a brave new world of remote controlled rats and super soldiers who need no sleep. *The Complex* will change our understanding of the militarization of America. We are a long way from Eisenhower's military industrial complex; this is the essential book for understanding its twenty first century progeny. With a combination of wit and number crunching, Turse gives a multidimensional picture of the biggest elephant in every room: the Pentagon. *Foreign Policy in Focus*. A brilliant exposé of the Pentagon's pervasive influence in our lives. Chalmers Johnson, author of the *Blowback Trilogy*. A deeply disturbing audit of the Pentagon's influence on American life. If Nick Turse is right, *The Matrix* may be just around the corner. Mike Davis, author of *Buddha's Wagon: A Brief History of the Car Bomb*. *Recon* Nel Yomtov, 2016-08-01. Secrecy is of the utmost importance in completing reconnaissance missions. Soldiers must be experts with binoculars. They move swiftly and silently to gather information about enemy weapons, territories and operations.
